American Catholic Hospitals Barbra Mann Wall, 2011-02-10 In American Catholic Hospitals Barbra Mann Wall chronicles changes in Catholic hospitals during the twentieth century many of which are emblematic of trends in the American healthcare system Wall explores the Church's struggle to safeguard its religious values As hospital leaders reacted to increased political economic and societal secularization they extended their religious principles in the areas of universal health care and adherence to the Ethical and Religious Values in Catholic Hospitals leading to tensions between the Church government and society The book also examines the power of women as administrators Catholic sisters wielded significant authority as well as the gender disparity in these institutions which came to be run for the most part by men Wall also situates these critical transformations within the context of the changing Church policy during the 1960s She undertakes unprecedented analyses of the gendered politics of post Second Vatican Council Catholic hospitals as well as the effect of social movements on the practice of medicine

The Social Mission of the U.S. Catholic Church Charles E. Curran, 2010-12-16 How does the Church function in the world What is it called to do and what does it actually do Charles E Curran explores the social mission of the U S Catholic Church from a theological perspective analyzing and assessing four aspects the importance of social mission who carries it out how it is carried out and the roles that the Church and individual Catholics play in supporting these efforts In the early and mid twentieth century the Catholic Church in the United States tended to focus its social mission on its own charities hospitals and schools But the Second Vatican Council called the Church to a new understanding of social mission deepening its involvement in and commitment to civic social and political life in the United States and abroad Curran devotes particular attention to three issues that have reflected the Church's strong sense of social mission since that time abortion war and peace and labor The Social Mission of the U S Catholic Church describes the proper role of bishops institutions and movements in the Church but insists that the primary role belongs to all the baptized members of the Church as they live out the social mission in their daily lives

Bibliography of the History of Medicine, Commodifying Everything Susan Strasser, 2013-12-16 Commodification refers most explicitly to the activities of turning things into commodities and of commercializing that which is not commercial in essence The mass marketing of pets the rise of the coffin industry the conversion of preacher into salesmen and the globalization of Taleggio cheese are some of the exciting but surprising topics in this volume that show how friendship death spirituality and artisanship all have a price after being commodified This unique collection of essays is a fascinating take on creating consumer products and consumer identities when what's for sale goes well beyond the thing itself It will be a course in a box for instructors who want to teach their students about commodification
