The Discovery of Chinese Logic Joachim Kurtz, 2011-07-27 Until 1898 Chinese and foreign scholars agreed that China had never known needed or desired a field of study similar in scope and purpose to European logic Less than a decade later Chinese literati claimed that the discipline had been part of the empire s learned heritage for more than two millennia This book analyzes the conceptual ideological and institutional transformations that made this drastic change of opinion possible and acceptable Reconstructing the discovery of Chinese logic as a paradigmatic case of the epistemic shifts that continue to shape interpretations of China s intellectual history it offers a fresh view of the formation of modern academic discourses in East Asia and adds a neglected chapter to the global histories of science and philosophy

Rethinking Confucianism Benjamin A. Elman, John B. Duncan, Herman Ooms, 2002 **A Brief History of the Relationship Between Confucianism, Daoism, and Buddhism** Zhongjian Mou, 2023-01-01 Chinese traditions of Confucianism Daoism and Buddhism have a profoundly philosophical dimension The three traditions are frequently referred to as three paths of moral teachings In this book Mou provides a clear account of the textual corpus that emerges to define each of these traditions and how this canonical axis was augmented by a continuing commentarial tradition as each generation reauthorized the written core for their own time and place In his careful exegesis Mou lays out the differences

between the more religious reading of these traditions with their defining practices that punctuate the human journey through life and the more intellectual and philosophical treatment of the texts that has and continues to produce a first order culture of annotation that become integral to the traditions themselves At the center of the alternative religious experience reflected throughout the teachings of Confucianism Daoism and Buddhism is the project of personal cultivation as it comes to be expressed as robust growth in family and communal relations For Mou these three highly distinctive and yet complementary ways of thinking and living constitute a kind of moral ecology wherein each of them complements the others as they stand in service to a different dimension of the human need for an educated spirituality 田海平,1991 **The**
