**Environmental Inequalities** Andrew Hurley, 2009-11-30 By examining environmental change through the lens of conflicting social agendas Andrew Hurley uncovers the historical roots of environmental inequality in contemporary urban America Hurley's study focuses on the steel mill community of Gary Indiana a city that was sacrificed like a thousand other American places to industrial priorities in the decades following World War II Although this period witnessed the emergence of a powerful environmental crusade and a resilient quest for equality and social justice among blue collar workers and African Americans such efforts often conflicted with the needs of industry To secure their own interests manufacturers and affluent white suburbanites exploited divisions of race and class and the poor frequently found themselves trapped in deteriorating neighborhoods and exposed to dangerous levels of industrial pollution In telling the story of Gary Hurley reveals liberal capitalism's difficulties in reconciling concerns about social justice and quality of life with the imperatives of economic growth He also shows that the power to mold the urban landscape was intertwined with the ability to govern social relations

**Urban Growth in American Cities** Roger Auch, Janice Taylor, William Acevedo, 2003 **Phase I Airport Busway/Wabash HOV, Allegheny County, Pennsylvania**, 1994 *From Tenements to the Taylor Homes* John F.

Bauman, Roger Biles, Kristin M. Szylvian, 2010-12-31 Authored by prominent scholars the twelve essays in this volume use the historical perspective to explore American urban housing policy as it unfolded from the late nineteenth through the twentieth centuries Focusing on the enduring quest of policy makers to restore urban community the essays examine such topics as the war against the slums planned suburbs for workers the rise of government aided and built housing during the Great Depression the impact of post World War II renewal policies and the retreat from public housing in the Nixon Carter and Reagan years

**Monographic Series** Library of Congress, **Liquid Asset** Barton H. Thompson Jr., 2023-11-21 A sweeping policy oriented account of the private and public management of the world's essential natural resource Governments dominated water management throughout the twentieth century Tasked with ensuring a public supply of clean safe reliable and affordable water governmental agencies controlled water administration in most of the world They built the dams reservoirs and aqueducts that store water when available and move that water to areas with increasing populations and economies Private businesses sometimes played a part in managing water but typically in a supporting position as consultants or contractors Today given the global need for innovative new technologies institutions and financing to solve the freshwater crisis private businesses and markets are playing a rapidly expanding role bringing both new approaches and new challenges to a historically public field In *Liquid Asset* Barton H Thompson Jr examines the growing position of the private sector in the business of water Thompson seeks to understand the private sector's involvement in meeting the water needs of both humans and the environment looks at the potential risks that growing private involvement poses to the public interest in water and considers the obstacles that private organizations face in trying to participate in a traditionally governmental

sector Thompson provides a richly detailed analysis to foster both improved public policy and responsible business behavior As the book demonstrates the story of private businesses and water offers a window into the serious challenges facing freshwater today and their potential solutions *World Encyclopedia of Cities: North America (United States N-Z and Canada)* George Thomas Kurian, 1994 The entry for each city includes a map of the city basic data and information about environment weather population ethnic composition government public finance economy labor education libraries health transportation housing crime religion media and travel and tourism

**Film's First Family** Terry Chester Shulman, 2019-11-12 A fascinating and beautifully written portrait of a tempestuous family that played a pivotal role in the development of American film Vanda Krefft author of *The Man Who Made the Movies* Adultery secret marriages divorce custody battles suicide attempts alcoholism the trials and tribulations of the Costellos were as riveting as any Hollywood feature film Written with unprecedented access to the family's personal documents and artifacts and interviews with several family members this riveting study explores the dramatic history of the Costellos and their significance to the stage and screen This eccentric tragic yet talented clan was one of the twentieth century's most accomplished families of actors second only to the Barrymores with whom they intermarried and begat a film dynasty riddled with jealousy resentment and heartbreak Inevitably the Costellos' brilliant achievements would be eclipsed by their own immutable penchant for self destruction Patriarch Maurice Dimples Costello was considered the first screen idol until his career marked by accusations of spousal abuse drunkenness and physical assault abruptly ended His daughter Dolores married John Barrymore arguably the most famous man in Hollywood at the time and their son would carry on the Barrymore name to successive generations of actors Costello's other daughter Helene was the first actress to star in an all talking picture *The Lights of New York* However her career was wracked by scandal in 1932 during her very public divorce from actor director Lowell Sherman who testified that his wife was a drunk and an avid reader of pornography The original members of this pioneering family may be gone but the name and legacy of the Costellos will live on through their accomplishments films and descendants most notably actress Drew Barrymore and through this sweeping biography with enough juicy material to have filled several volumes Leonard Maltin *Urbanism Past & Present*, 1976

**Library of Congress Catalogs** Library of Congress, 1979 *The Dramatic Vision of August Wilson* Sandra Garrett Shannon, 1995 In *The Dramatic Vision of August Wilson* Sandra Shannon follows the playwright's path through each decade From the outset she considers how he uses poetry the blues Romare Bearden's art and other cultural artifacts to lead him to imagined sites of pain and resignation healing and renewal in the collective memory of black America It is in these places of defeat and victory Shannon demonstrates that Wilson creates drama as he excavates examines and reclaims the past Although Wilson diverts attention away from factual details and focuses on the human costs of family dislocation chronic unemployment or cultural alienation Shannon illustrates how fully the plays are grounded in credible historical contexts from slavery and Emancipation to the aftermath of World War II the 1960s and the

Vietnam War Moreover she identifies and analyzes the themes that recur in some plays and branch off in new directions in others including the dislocations that attended black migration to the North and communication gaps between black men and women As she examines each of the plays in Wilson s dramatic history of the African American experience Shannon conveys the broad range of his dramatic vision
