

An aerial photograph of a dramatic coastal landscape. A light-colored, winding road or path snakes along the edge of a steep, densely forested green cliff. The cliff face is rugged and drops sharply to a rocky shoreline. Below the cliff, the ocean is a deep blue, with some white surf visible near the shore. In the distance, more land and hills are visible under a clear sky.

**Canadian Reference Sources** Mary E. Bond, Martine M. Caron, 1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people institutions organizations publications art literature languages and history It lists books of a general nature as well as works in the disciplines of history and the humanities These large divisions are then broken down by subject genre type of document and province or territory Titles of national provincial territorial or regional interest are included in every subject area when available The contents of the book are indexed four ways by name title French subject and English subject And to facilitate browsing the major reference books those dealing with more than one subject or a large geographical region are also cross referenced Two entries have been

created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include citation in the language of the publication and a bilingual annotation. The annotations are descriptive and provide information on the content, arrangements and indexing of works, the availability of non-print formats, previous editions and title changes and related works. Canadian Reference Sources will be an invaluable reference tool for future scholars and researchers.

Nova Scotia Historical Review, 1996      **Canadian Books in Print. A collection of unusual place names from the four Atlantic provinces. The origins of each of these 477 strange names are explained and any notable or quirky history is described in detail. Of course many of these names become unusual only when they are at a distance from the place of their origin. Joe Batt's Arm for example may seem unusual to a Manitoban, not to Newfoundlanders. Pokemouche could sound odd to an Ontarian but familiar to New Brunswickers. This book also includes little known facts, trivia and occurrences from the Atlantic provinces and also 18 mini biographies of famous, infamous and not so famous but still interesting Atlantic Canadians.

The Canadian Magazine, 1899      **Canadian Statistics Index**, 1989      Place Names Richard R. Randall, 2001-02-28. This book provides a comprehensive review of the dynamic field of geographic naming through the eyes of an expert. It is a vital addition to any library's collection of up-to-date research materials. After showing the political importance of place names for military and diplomatic reasons with special reference to U.S. experiences, Randall concludes with a survey of name disputes and examines an assortment of unusual and controversial location names.
