*The Monthly paper of Sunday teaching*, 1863      *The Chickens Fight Back* David Waltner-Toews, 2009-03-01 If you have any interest at all in epidemiology modern medicine or the survival of the human race do read *The Chickens Fight Back* Georgia Straight Emerging diseases like mad cow SARS and avian flu are for the moment at least far more prevalent in animals than in humans Still the knowledge that measles TB and smallpox were at one time emerging diseases that eventually made a permanent and quite deadly jump to humans gives epidemiologists pause This book examines the various groups of animal diseases explains what attracts them to the human population from food to sex to living conditions and offers suggestions for keeping them at bay It also points out that diseases must be looked at from an ecological cultural and economic point of view as well as from a biological standpoint Cooking meat till its well done and slathering on insect repellent for a hike in the woods are effective preventative measures but as the author notes it s more important to fundamentally rethink humankind s place in the world      **Timothy Findley's Novels Between Ethics and**

**Postmodernism** Dagmar Krause, 2005 Timothy Findley 1930 2002 is one of the most important contemporary Canadian writers His novels have been classified as postmodern exhibiting characteristic features such as parody historiographic metafiction and hybrid genres This classification of Findley as a postmodern writer however largely neglects the fact that Findley is deeply committed to the exploration of certain ethical and political themes Recurring topics in his work are for instance fascism environmental concerns and the problem of responsibility Sparked off by the fascinating question of how postmodernism and ethics can be reconciled at all and inspired by the so called ethical turn in the literary theory of the 1990s this study supplies a closer look at Findley s ethics with regard to its postmodern potential A detailed analysis of five of his novels *The Wars* *Famous Last Words* *Not Wanted on the Voyage* *The Telling of Lies* and *Headhunter* explores the ethical dimension of Findleys work and its consequences for his categorization as a postmodern writer      **The Conquest of Plague**

Leonard Fabian Hirst, 1953      **Error, Misuse, Failure** Julian Yates, 2003 If certain objects work well no one notices them As with black boxes their success may be gauged by their relative invisibility and this was the indirect goal of the objects that Julian Yates considers here the portrait miniature the relic the privy flush toilet the printed text and the priest hole a secret hiding place for Catholic priests in Protestant England Because each of these contrivances was prone to error misuse and sometimes catastrophic failure they become in Yates s analysis an occasion for recasting the history of the English Renaissance as object lessons knowing from the point of view of the known It is through such lapses the texts and stories generated to explain away a relic that is too easily faked a miniature that is too curiously real the stench of a failing privy a book that persistently sheds its pages or the presence of so much papist trash in an ostensibly reformed England that Yates recovers the silent work of things in cultural production Drawing object lessons from failing technological devices **Error** **Misuse** **Failure** plumbs the foundations of Renaissance culture in England recovering a curious language of mistakes dirt and

parasitism that associates the failures of these things with the figures of Rome Catholicism and Sodom Yates offers a mode of historical inquiry rooted in material culture sensitive to the way humans induct nonhumans animals plants and manufactured things into their communities Historically the book offers a new set of stories about the rise of printing the development of domestic architecture and England s Catholic community stories that remind readers of the ways in which attending to the history of nonhumans requires a radical rethinking of historical landmarks and boundaries     The Second Part of a Treatise Concerning Policy, and Religion, Etc Thomas FITZ-HERBERT,1610     Timothy Findley and the Aesthetics of Fascism Anne Elizabeth Bailey,1998 Investigates the troubling relationship between narrative meaning and representations of violence within Timothy Findley s novels     □□□□ □□□□     1896, □□□□ □□□□□ □□□□ □□□□     1896, □□□□ □□□□ □□ □□□□ □□□□ □□□□ □□□□ □□□□□ William Henry Greenburg,1896     □□□□ □□□□□ □□□□ □□□□ Jews,1896     □□□□ □□□□ □□ : □□□□ □□□□□ □□□□ □□□□ William Henry Greenburg,1896     **Poems on Various Subjects ...
