Urban Regeneration Through Valuation Systems for Innovation Francesca Abastante,Marta Bottero,Chiara D'Alpaos,Luisa Ingaramo,Alessandra Oppio,Paolo Rosato,Francesca Salvo,2022-09-20 This book examines the role of the evaluation models in decision making processes for the construction of circular cities in the digital revolution In particular the book explores the need for a rethinking of development models proposed by the circular economy which requires the valorization of natural social and economic capital Urban environment represents a crucial field of analysis in which applying the circular economy principles in order to steer a course towards a sustainable economy characterized by processes meant to create value instead of extracting it which put a step forward in

the pathway towards a better future in terms of economic environmental and social effects and desirable outcomes In this context the design of urban regeneration processes and housing environments requires the adoption of inclusive analysis assessment models combined with the structuring and organization of public private investments that can contribute to creating positive natural and social impacts as well as economic and financial returns This fundamental paradigm shift is accentuated in the current context in which the digital revolution is reinventing the future and calls for a rethinking and reformulation of value systems in the era of technological process innovations while respecting economic natural and social ecosystems

*Sustainable Innovation for Engineering Management (SIEM)* Mounir El Khatib,Haitham M. Alzoubi,Yordanka Angelova,2025-11-02 This book dives into topics like renewable energy adoption how AI and IoT can create smarter systems and the transition toward more sustainable infrastructures The SIEM book offers an in depth look at how sustainable innovation is transforming engineering management providing readers with practical insights and strategies It focuses on advanced technologies data driven approaches and circular economy concepts aiming to tackle the key challenges that today s engineers and managers are facing With a focus on the circular economy it explores how engineering leaders can integrate sustainability into their processes to achieve both efficiency and growth Practical examples and real world cases are also included showing how companies around the world are balancing innovation with environmental goals In an era where businesses are under pressure to reduce their environmental impact while staying competitive this book gives actionable tools and strategies for achieving both From big data applications in decision making to AI powered solutions Sustainable Innovation for Engineering Management SIEM equips readers with the knowledge they need to succeed in this evolving field Designed for professionals academics and students this book creates a bridge between theory and real world practices Whether you are working to solve current industry problems or looking to inspire sustainable change within your organization this book is a valuable resource for driving innovation and fostering sustainability together

*Creative Technologies for Multidisciplinary Applications* Connor, Andy M.,2016-03-29 Given that institutions of higher education have a predisposition to compartmentalize and delineate areas of study creative technology may seem oxymoronic On the contrary the very basis of western thought is found in the idea of transcendent knowledge The marriage of opposing disciplines therefore acts as a more holistic approach to education Creative Technologies for Multidisciplinary Applications acts as an inspiration to educators and researchers who wish to participate in the future of such multidisciplinary disciplines Because creative technology encompasses many applications with the realm of art gaming the humanities and digitization this book features a diverse collection of relevant research for the modern world It is a pivotal reference publication for educators students and researchers in fields related to sociology technology and the humanities
