The Metail Economy: 6 Strategies for Transforming Your Business to Thrive in the Me-Centric Consumer Revolution Joel Bines, 2022-01-25 Rethink, rebuild, and re-energize your relationship with every customer for ultimate success in today's Metail economy. Armed with computers, tablets, smartphones, and social media, today's consumers have revolted against the marketplace status quo. Demanding a voice and sometimes a hand in the products they buy, these digitally empowered consumers have inverted the traditional power dynamics of retail into Metail. From Joel Bines, one of today's top retail brand thought leaders, *The Metail Economy* provides innovative methods for connecting with the Me-centric consumer and shows how to thrive in this consumer revolution. Bines provides examples of companies that have failed to address the Metail paradigm along with those that are on the right path, clearly illustrating how the traditional power dynamic has inverted and why it matters for business survival. Bines offers six proven models you can use to cultivate and serve highly informed and empowered customers in the Metail marketplace: Curation, Customization, Category Expertise, Cost Convenience, Community. Bines explains why you shouldn't pigeonhole your business into one model but rather develop a deep self-awareness about how your organization is viewed and valued by your customers and focus your efforts accordingly. Whether you're the CEO of a global organization or starting your own clothing boutique, you must become a Metailer, and this groundbreaking book will show you how. **The Economist**, 1843

The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us Joe Federer, 2020-09-15. From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology as well as more than a decade of hands-on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family, or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling. *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative, and in the end, deliver more effective marketing that provides value.
