possibly contained a water ocean including the Earth and the three Galilean satellites other than Io For these reasons the book includes overviews of the evolutionary and molecular biology that are necessary There is a discussion of other sectors of culture that are the natural frontiers of astrobiology especially the humanities      **Dictionary Of Nineteenth-Century of British Scientists** Bernard Lightman,2004 This dictionary contains 1200 entries on figures who had an impact on British science in the 19th century By examining how the theories and practices of scientists were shaped by Victorian beliefs about religion gender imperialism and politics it examines the development of science      *The N.Z.
