Archer Taylor's Dictionary of American Proverbs and Proverbial Phrases 1820-1880. It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings: letters, diaries, histories, travel books, political pamphlets and the like. The authors represent a wide cross section of the populace from scholars and statesmen to farmers, shopkeepers, sailors and hunters. Mr. Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies. This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B. Friedman. What makes the work important is Whiting's authority: a proverb or proverbial phrase is what B. J. W. thinks is a proverb or proverbial phrase. There is no objective operative definition of any value; no divining rod; his tact, feel, experience determine what's the real thing and what is spurious. *Judy, Or the London Serio-comic Journal*, 1881.
