Pirate Economy:

Media Piracy in Emerging Economies Joe Karaganis, 2011 Media Piracy in Emerging Economies is the first independent large scale study of music film and software piracy in emerging economies with a focus on Brazil India Russia South Africa Mexico and Bolivia Based on three years of work by some thirty five researchers Media Piracy in Emerging Economies tells two overarching stories one tracing the explosive growth of piracy as digital technologies became cheap and ubiquitous around the world and another following the growth of industry lobbies that have reshaped laws and law enforcement around copyright protection The report argues that these efforts have largely failed and that the problem of piracy is better conceived as a failure of affordable access to media in legal markets
