Reading Ranciere Paul Bowman, Richard Stamp, 2011-06-02 Over the past 40 years Jacques Ranciere s work has defined itself through a remarkable set of philosophical differences in relation to other key figures working in the fields of politics philosophy and aesthetics There have been significant philosophical theoretical and aesthetic disagreements with influential figures in contemporary thought including Althusser Bourdieu Derrida Agamben Deleuze Foucault Habermas and Badiou Through these differences Ranciere has emerged as one of the world s leading contemporary theorists Whilst Ranciere has long been a well known force in francophone contexts the translation of his works into English has generated a lot of excitement and catapulted him to the forefront of attention in several putatively distinct but interconnected fields philosophy politics critical theory aesthetics and film Reading Ranciere intervenes in this ongoing discourse by assembling an eminent

collection of critical assessments of the significance of Rancière's diverse impact and growing influence This book offers a sustained critically balanced response to the work of this major contemporary theorist as well as a new interview and a key text published here for the first time
