

ORGANIC COMPOUNDS

MS Virtual & Print Inquiry Lab

The image displays a collection of educational resources for organic chemistry. In the background, there are two "Compounds Student Lab Sheet" documents. The left sheet includes a "Procedure" section with four steps: 1. Match each chemical formula with its structural formula at the bottom of the page. 2. In the same row, answer whether the first has been done for you. 3. Follow steps 1-2 for the remaining. 4. Build a model of each compound using the "Build a Compound" guide below. Below the procedure is a "Check for Understanding" section asking what elements are present in organic compounds. The right sheet features a "Compound Chart" table with columns for "Name", "Molecular Formula", and "Structural Formula".

In the foreground, a tablet displays a video titled "Organic Compounds Inquiry Lab". The video's "Procedure" section includes step 4: "In the space on the right, build a model of the compound using the available shapes. The lines represent chemical bonds, and the circles represent atoms. Refer to the structural formulas on Slide 3 if you need help." The video interface shows a play button, a progress bar at 100%, and a volume icon. On the tablet screen, a chemical structure of water (H_2O) is shown, consisting of one white circle labeled 'H' connected to two red circles labeled 'O'. Below the video, a chemical structure of butane is visible, showing a chain of four carbon atoms (red circles) with hydrogen atoms (white circles) attached.
