Place Identity Participation And Planning:

Place Identity, Participation and Planning Cliff Hague, Paul Jenkins, 2004-08-02 The central concern of this book is place identity and its representation and manipulation through planning Place identity is of growing international concern both in planning practice and in academic work The issue is important to practitioners because of the impact of globalisation on notions of place This book includes comparisons between Norway the Netherlands Sweden and Scotland focusing strongly on the question of how different spatial planning systems and practices are currently conceiving and affecting issues of place identity *Raum und Gesellschaft* Oliver Frey, 2025-07-25 In dem Buch wird der Bogen über die Fachdisziplinen

Raumplanung und Soziologie gespannt Ziel ist dabei das Fachgebiet Planungssoziologie in seiner historischen Entwicklung darzustellen zentrale Forschungs- und Lehrfelder aufzuzeigen und das akademische Fach institutionell zu verstetigen Das Tätigkeitsgebiet der räumlichen Planung wird analytisch in eine Dreiecksbeziehung gesellschaftlicher Strukturen und Prozesse der baulich materiellen Gestaltung von Orten und den Formen einer gezielten räumlichen Steuerung eingeordnet Dabei wird aufgezeigt dass Planung als Beruf in einem möglichst ausgewogenen Gleichgewicht zwischen der Praxis technisch physischer Planung einem kommunikativ politischen Selbstverständnis und einem empathisch künstlerischen Zugang zu Orten und Räumen liegt **Architecture, Participation and Society** Paul Jenkins, Leslie Forsyth, 2009-09-10 For the first time this book

defines how social participation can be incorporated into architecture in a successful and practical manner which will better serve both architecture and society International cases and past experiences are looked at to analyse what lessons have been learnt putting forward a set of recommendations for architectural practices and other key actors *Space, Place and*

Inclusive Learning Judy Hemingway, Felicity Armstrong, 2016-04-08 This collection explores ways in which theories of space and place can be used in understanding processes of exclusion and inclusion in education The contributions foreground how the spatial turn and geographical knowledges can inform debates on the relationships between learning space and place understandings of the ways in which space and place affect education and learning familiar research agendas through the application of conceptual perspectives from different disciplines The ten chapters which make up this book are by contributors from Australia Italy and the United Kingdom who draw in very different ways on spatial theory as a means of exploring processes of inclusion and exclusion in education Each one of the authors not only seeks to challenge growing orthodoxies in their respective field but is interested in cross disciplinarity and spatial theory in education This book provides key readings for experienced and beginning teachers studying for bachelors masters and research degrees or professional qualifications It will be particularly useful to equality and diversity post holders lecturers researchers and policy makers working in all education establishments which take issues of inclusion seriously The international content of the diverse papers in *Space Place and Inclusive Learning* will be of interest not only to those practising in the United Kingdom but to educationists working in other countries who seek to understand how space and place modulate opportunities for inclusion

This book was originally published as a special issue of the International Journal of Inclusive Education
