Controlling Contagion Sheilagh Ogilvie, 2025-02-18 How human institutions markets states communities religions guilds and families have helped both to control and to exacerbate epidemics throughout history How do societies tackle epidemic disease In Controlling Contagion Sheilagh Ogilvie answers this question by exploring seven centuries of pandemics from the Black Death to Covid 19 For most of history infectious diseases have killed many more people than famine or war and in 2019 they still caused one death in four Today we deal with epidemics more successfully than our ancestors managed plague smallpox cholera or influenza But we use many of the same approaches Long before scientific medicine human societies coordinated and innovated in response to biological shocks sometimes well sometimes badly Ogilvie uses historical epidemics to analyse how human societies deal with externalities situations where my action creates costs or benefits for others beyond those that I myself incur Social institutions markets states communities religions guilds and families help us manage the negative externalities of contagion and the positive externalities of social distancing sanitation and immunization Ogilvie shows how each institution enables us to coordinate innovate and inspire each other to limit contagion But each institution also has weaknesses that can make things worse Markets shut down voluntarily during every epidemic in history but they also brought people together spreading contagion

States mandated quarantines sanitation and immunization but they also waged war and censored information exacerbating epidemics Religions admonished us to avoid infecting our neighbours but they also preached against science and medical innovations What decided the outcome Ogilvie argues was a temperate state an adaptable market and a strong civil society where a diversity of institutions played to their own strengths and checked each other s flaws *The Rise and Decline of an Iberian Bourgeoisie* Jeff Fynn-Paul,2016 One of the first long term studies of the Catalonian city of Manresa during the late medieval crisis *Thoth* Joseph Shield Nicholson,1888 **Calendar of State Papers and Manuscripts Relating to English Affairs** Great Britain. Public Record Office,1864 *Merchants' Association Review* ,1903 **The merchant of Venice** William Shakespeare,1887 *The Great Pestilence , Now Commonly Known As the Black Death* Francis Aidan Gasquet,1893 *King John. Midsummer night's dream. Merchant of Venice* William Shakespeare,1881 **The Merchant Prince of Cornville** Samuel Eberly Gross,1896 **Annual report of the Supervising Surgeon-General of the Marine Hospital Service of the United States** ,1896 **The Merchant Prince of Cornville. A Comedy** Samuel Eberly Gross,1896 **The Early History of the Guild of Merchant Taylors of the Fraternity of St. John the Baptist, London: The history** Charles Mathew Clode,1888 **The Penny Library of Famous Books** ,1897 *A History of the Administration of the Royal Navy and of Merchant Shipping in Relation to the Navy from MDIX to MDCLX with an Introduction Treating of the Preceding Period* Michael Oppenheim,1896 *The Early History of the Guild of Merchant Taylors of the Fraternity of St. John the Baptist, London: The lives* Charles Mathew Clode,1888 **A cyclopædia of practical receipts and ... information on the arts, manufactures, and trades** Arnold James Cooley,1880 **India** ,1897
