embracing innovations that originate beyond the conscious domain they use approximate measurement and flexible patterning in which the design conceived of as a an invitation to variation will not repeat but will materialize in a sequence of visual elaborations Afro traditional attitudes and methods are antithetical to the standard American quilting tradition practiced by both whites and blacks in which great value is placed on precise measurement and exact pattern replication Instead they bear a keen likeness to the improvisatory practices of the textile makers of Kongo and West Africa regions from which American slaves were taken These antipathies and affinities suggest an enduring African influence on the Afro traditional quilt
