Susan S. James

Plain Janes Tight End:

Plain Jane's Tight End Liz Hunter, 2005-04 Jane Sebastian is perfectly satisfied living on Green Bay as a reclusive writer managing her best friend's writing career until one retired Packer invades her sanctuary and shows her how full life can be. She's finally found the hero of her dreams with one small complication he's engaged to her best friend. Tight end Bobby Goodison is in love with a wonderful woman. She makes him feel ten feet tall and she deflates him when he gets too full of himself. She's feisty and funny but not the woman who wears his ring. All bestselling author FantaCee wants is the homage she deserves after slaving for years to gain recognition. And attention she gets on her thirty day book tour, an unlimited supply of men, booze and drugs. Fanny doesn't mean to hurt anyone especially her best friend or her handsome fiancé but she'll do anything including breaking the law to ensure her spot on the bestseller list. Amid the maze of secrets and betrayals can any of the three find lasting love? *The Decisive Moment* Jonah Lehrer, 2009-02-19 Since Plato philosophers have described

the decision making process as either rational or emotional we carefully deliberate or we blink and go with our gut. But as scientists break open the mind's black box with the latest tools of neuroscience they're discovering this is not how the mind works. Our best decisions are a finely tuned blend of both feeling and reason and the precise mix depends on the situation. When buying a house for example it's best to let our unconscious mull over the many variables. But when we're picking stocks and shares intuition often leads us astray. The trick is to determine when to lean on which part of the brain and to do this we need to think harder and smarter about how we think. In *The Decisive Moment* Jonah Lehrer arms us with the tools we need drawing on cutting edge research by Daniel Kahneman, Colin Camerer and others as well as the world's most interesting deciders from airline pilots, world famous sportsmen and hedge fund investors to serial killers, politicians and poker players. He shows how the fluctuations of a few dopamine neurons saved a battleship during the Persian Gulf War and how the fevered activity of a single brain region led to the sub prime mortgage crisis. Lehrer's goal is to answer two questions that are of interest to just about anyone from CEOs to firefighters. How does the human mind make decisions? And how can we make those decisions better? **Plain Jane's Secret Life** Cathy Gillen Thacker, 2004 *Plain Jane's Secret Life* by Cathy Gillen Thacker released on Jul 25 2004 is available now for purchase
