**Performing Postracialism** Philip S.S. Howard, 2023-02-14 Blackface instances in which non-Black persons temporarily darken their skin with make-up to impersonate Black people usually for fun and frequently in educational contexts constitutes a postracialist pedagogy that propagates antiblack logics In Performing Postracialism Philip S.S. Howard examines instances of contemporary blackface in Canada and argues that it is more than a simple matter of racial misrepresentation The book looks at the ostensible humour and dominant conversations around blackface arguing that they are manifestations of the particular formations of antiblackness in the Canadian nation state and its educational institutions It posits that the occurrence of blackface in universities is not incidental and outlines how educational institutions' responses to blackface in Canada rely upon a motivation to protect whiteness Performing Postracialism draws from focus groups and individual interviews conducted with university students faculty administrators and Black student associations along with online articles about blackface to provide the basis for a nuanced examination of the ways that blackface is experienced by Black persons The book investigates the work done by Black students faculty and staff at universities to challenge blackface and the broader campus climate of antiblackness that generates it

**New Medicalism and the Mental Health Act** John Fanning, 2018-08-09 Ten years have passed since the Mental Health Act MHA 2007 came into force in England An amending statute the Act reformed the MHA 1983 and reshaped the law governing the compulsory care and treatment of people suffering from mental disorders Primarily driven by concerns about risk it sought to remove legalistic obstacles to civil commitment and extend the law's coercive reach into the community At the time of its introduction the 2007 Act was written off as a retrograde step and a missed opportunity for radical rights-focused reform Despite this little attention has been paid to its impact in the years since Published to coincide with the tenth anniversary of the 2007 Act this book offers a timely evaluation of mental health law and policy in England It argues that the current MHA defies easy categorisation within any of the descriptive models which have customarily narrated the mechanics of civil commitment namely legalism new legalism and medicalism It therefore makes the case for a new model new medicalism to account for the 2007 Act's enhancement of the discretion of mental health professionals for the express purposes of facilitating the management of situations of risk In

doing so the book critically examines the problems inherent in civil commitment frameworks organised around the concept of risk explores the theoretical foundations of new medicalism considers the challenges facing proponents of future reform in the era of the UN Convention on the Rights of Persons with Disabilities and reflects on the 2007 Act's practical impact

*The Coddling of the American Mind* Jonathan Haidt, Greg Lukianoff, 2018-09-04 Excellent their advice is sound liberal parents in particular should read it Financial Times The New York Times bestseller What doesn't kill you makes you weaker Always trust your feelings Life is a battle between good people and evil people These three Great Untruths contradict basic psychological principles about well being as well as ancient wisdom from many cultures And yet they have become increasingly woven into education culminating in a stifling culture of safetyism that began on American college campuses and is spreading throughout academic institutions in the English speaking world In this book free speech campaigner Greg Lukianoff and social psychologist Jonathan Haidt investigate six trends that caused the spread of these untruths from the decline of unsupervised play to the corporatization of universities and the rise of new ideas about identity and justice Lukianoff and Haidt argue that well intended but misguided attempts to protect young people can hamper their development with devastating consequences for them for the educational system and for democracy itself
