## **Plots Of Opportunity Representing Conspiracy In Victorian England:**

*Plots of Opportunity* Albert D. Pionke, 2004 After surveying England's evolving theories of representative politics and individual and collective secretive practices Pionke traces the intersection of democracy and secrecy through a series of case histories Using works by Thomas Carlyle Wilkie Collins Charles Dickens Benjamin Disraeli John Henry Newman and others along with periodicals histories and parliamentary documents of the period he shows the rhetorical prominence of groups such as the Freemasons the Thugs the Carbonari the Fenians and the Jesuits in Victorian democratic discourse book cover

*Werke, Artikel, Entwürfe* Regina Roth, Christine Weckwerth, 2023-10-26 Im Zentrum des Bandes stehen zwei umfangreichere Druckschriften von 1845 und ein undatiertes Manuskript Die von Marx und Engels verfasste Heilige Familie sowie die Lage der arbeitenden Klasse in England von Engels mit ihrer bis heute bemerkenswerten Auseinandersetzung mit den wirtschaftlichen und sozialen Wirkungen der Industrialisierung am Beispiel Großbritanniens Bei dem nicht datierten fragmentarischen Entwurf von Friedrich List handelt es sich um eine Handschrift von Marx in der er ausgehend von einer Kritik an List ökonomische Grundbegriffe erörtert Nach den Pariser Manuskripten ist dies eines der ersten Manuskripte in denen Marx Grundlagen für zentrale ökonomische Konzepte wie Tauschwert Arbeitslohn Grundrente oder produktive Kräfte schafft Hinzu kommen 21 Artikel von Engels darunter die Elberfelder Reden sowie drei Artikel und eine Erklärung von Marx Sämtliche Werke und Texte werden hier erstmals historisch kritisch ediert wobei die Identifikation benutzter Quellen einen Schwerpunkt bildet

*Plots, Designs, and Schemes* Michael Butter, 2014-05-08 *Plots Designs and Schemes* is the first study that investigates the long history of American conspiracy theories from the perspective of literary and cultural studies Since research in these fields has so far almost exclusively focused on the contemporary period the book concentrates on the time before 1960 Four detailed case studies offer close readings of the Salem witchcraft crisis of 1692 fears of Catholic invasion during the 1830s to 1850s antebellum conspiracy theories about slavery and anxieties about Communist subversion during the 1950s The study primarily engages with factual texts such as sermons pamphlets political speeches and confessional narratives but it also analyzes how fears of conspiracy were dramatized and negotiated in fictional texts such as Nathaniel Hawthorne's *Young Goodman Brown* 1835 or Hermann Melville's *Benito Cereno* 1855 The book offers three central insights

- 1 The American predilection for conspiracy theorizing can be traced back to the co presence and persistence of a specific epistemological paradigm that relates all effects to intentional human action the ideology of republicanism and the Puritan heritage
- 2 Until far into the twentieth century conspiracy theories were considered a perfectly legitimate form of knowledge As such they shaped how many Americans elites as well as common people understood and reacted to historical events The Revolutionary War and the Civil War would not have occurred without widespread conspiracy theories
- 3 Although most extant research claims the opposite conspiracy theories have never been as marginal and unimportant as in the past decades Their disqualification as stigmatized knowledge only occurred around 1960 and coincided with a shift from theories that

detect conspiracies directed against the government to conspiracies by the government      *Routledge Handbook of Conspiracy Theories* Michael Butter, Peter Knight, 2020-02-17 Taking a global and interdisciplinary approach the Routledge Handbook of Conspiracy Theories provides a comprehensive overview of conspiracy theories as an important social cultural and political phenomenon in contemporary life This handbook provides the most complete analysis of the phenomenon to date It analyses conspiracy theories from a variety of perspectives using both qualitative and quantitative methods It maps out the key debates and includes chapters on the historical origins of conspiracy theories as well as their political significance in a broad range of countries and regions Other chapters consider the psychology and the sociology of conspiracy beliefs in addition to their changing cultural forms functions and modes of transmission This handbook examines where conspiracy theories come from who believes in them and what their consequences are This book presents an important resource for students and scholars from a range of disciplines interested in the societal and political impact of conspiracy theories including Area Studies Anthropology History Media and Cultural Studies Political Science Psychology and Sociology      Conspiracy Theories in the United States and the Middle East Michael Butter, Maurus Reinkowski, 2014-08-19 Conspiracy Theories in the United States and the Middle East is the first book to approach conspiracy theorizing from a decidedly comparative and interdisciplinary perspective Whereas previous studies have engaged with conspiracy theories within national frameworks only this collection of essays draws attention to the fact that conspiracist visions are transnational narratives that travel between and connect different cultures It focuses on the United States and the Middle East because these two regions of the world are entangled in manifold ways and conspiracy theories are currently extremely prominent in both The contributors to the volume are scholars of Middle Eastern Studies Anthropology History Political Science Cultural Studies and American Studies who approach the subject from a variety of different theories and methodologies However all of them share the fundamental assumption that conspiracy theories must not be dismissed out of hand or ridiculed Usually wrong and frequently dangerous they are nevertheless articulations of and distorted responses to needs and anxieties that must be taken seriously Focusing on individual case studies and displaying a high sensitivity for local conditions and the cultural environment the essays offer a nuanced image of the workings of conspiracy theories in the United States and the Middle East      *London's Burning* Antony Taylor, 2012-01-26 From the early years of the nineteenth century cultural pessimists imagined in fiction the political forces that might bring about the destruction of London Periods of popular protest or radicalism have generated novels that consider the methods insurgents might use to terrorise the metropolis There has been a tendency to dismiss such writings as the lurid imaginings of pulp novelists but this book re evaluates the contribution of popular fiction to the construction of the terrorist threat It analyses the high points for the production of such works and locates them in their cultural and historical context From the 1840s when a fear of Chartist insurgency was paramount in the minds of authors it moves through the anarchist thrillers of the 1890s considers writers

fears about Bolshevik revolution in the East End of the 1920s and 1930s explores fears of Fascism in the inter war years and assesses the concerns with underground counter culture that feature in the thriller literature of the 1970s It concludes with a re evaluation of the metropolitan background to the figure of the Islamist terrorist **Dreadful Plots** Anne Campbell Carter,2007 *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur* ,2007 **Why Harry Met Sally** Joshua Louis Moss,2017-07-18 From immigrant ghetto love stories such as *The Cohens and the Kellys* 1926 through romantic comedies including *Meet the Parents* 2000 and *Knocked Up* 2007 to television series such as *Transparent* 2014 Jewish Christian couplings have been a staple of popular culture for over a century In these pairings Joshua Louis Moss argues the unruly screen Jew is the privileged representative of progressivism secular modernism and the cosmopolitan sensibilities of the mass media age But his her unruliness is nearly always contained through romantic union with the Anglo Christian partner This Jewish Christian meta narrative has recurred time and again as one of the most powerful and enduring although unrecognized mass culture fantasies Using the innovative framework of coupling theory *Why Harry Met Sally* surveys three major waves of Jewish Christian couplings in popular American literature theater film and television Moss explores how first wave European and American creators in the early twentieth century used such couplings as an extension of modernist sensibilities and the American melting pot He then looks at how New Hollywood of the late 1960s revived these couplings as a sexually provocative response to the political conservatism and representational absences of postwar America Finally Moss identifies the third wave as emerging in television sitcoms Broadway musicals and gross out film comedies to grapple with the impact of American economic globalism since the 1990s He demonstrates that whether perceived as a threat or a triumph Jewish Christian couplings provide a visceral easily graspable template for understanding the rapid transformations of an increasingly globalized world **Shadows of Mutiny** Elaine Kathleen Musgrave,2006 *Nineteenth-century Literature* ,2004-06 **Victorian Periodicals Review** ,2006 *Victorian Representations of War* Gilles Teulié,2007 *Victorian Poetry* ,2016 *Carlyle Studies Annual* ,2007 **Publications of the Modern Language Association of America** ,2004 *Annual Bibliography of Victorian Studies* ,2007 Lists editions books articles and dissertation abstracts published from 1945 to 1999 on every field of nineteenth century British studies *Annual Bibliography of English Language and Literature* Modern Humanities Research Association,2005 Includes both books and articles *Bibliographie du dix-neuvième siècle* Stéphanie Dord-Crouslé,Dominique Pety,Philippe Régnier,2006 S lection de 1 614 publications françaises et étrangères sur la littérature les arts les sciences et l'histoire du XIXe siècle en France et dans le monde d'un auteur individuel ou collectif Présentation en quatre grandes sections ditions de textes ouvrages non collectifs ouvrages collectifs revues Un triple index permet de croiser les recherches par nom et par thème *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2005
