legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa *The National Union Catalog* ,1963 *The Plough and the Stars* Sean O'Casey,1937 National Theatre Elbert A Wickes presents the world famous Abbey Theatre Players from Dublin under the personal management of F R Higgins Friday night May 20 *The Plough and the Stars* a tragedy in four acts by Sean O'Casey **Easy Star Lessons** Richard Anthony Proctor,1894 **An intermediate physical and descriptive geography, abridged from the Physical, historical, and descriptive geography.
