EXPONENTIAL INCREASE AND DECREASE

Graphs - Linear vs. Exponential

Linear Increase

Linear Decrease

Exponential Increase

Exponential Decrease

Basic Exponential Formula

$$y = a(b)^t \quad \text{where:}$$

y = Final amount

a = Initial amount

b = Rate (decimal form)

t = Time

Calculating the "b" term:

For an 8% increase, change to decimal form $\rightarrow 0.08$ and **add** to 1.

$$b = 1 + 0.08 = 1.08 \quad \checkmark$$

For an 8% decrease, change to decimal form $\rightarrow 0.08$ and **subtract** from 1.

$$b = 1 - 0.08 = 0.92 \quad \checkmark$$

Write Equation from Word Problem

Your house is worth \$365,000 today. Write exponential equations to solve the following:

6% annual increase over 5 years

$$y = 365,000(1 + 0.06)^5$$

$$y = 365,000(1.06)^5$$

$$y = \$488,452 \quad \checkmark$$

4% annual decrease over 3 years

$$y = 365,000(1 - 0.04)^3$$

$$y = 365,000(0.96)^3$$

$$y = \$322,929 \quad \checkmark$$

INTERSECTING FUNCTIONS

The graph of $y = (x-6)^2 + 4$ intersects the graph of $y = 3x - 10$ at two points. Find the (x, y) coordinates of these two points.

① Set the equations equal to each other:

$$(x-6)^2 + 4 = 3x - 10$$

② Solve for x :

$$x^2 - 6x - 6x + 36 + 4 = 3x - 10$$

$$x^2 - 15x + 50 = 0$$

$$(x-5)(x-10) = 0$$

$$x-5=0 \text{ and } x-10=0$$

$$x=5 \text{ and } x=10$$

③ Plug $x=5$ and $x=10$ into one of the equations to find the y values.

$$x=5 \rightarrow y = 3(5) - 10 \rightarrow y = 5$$

$$x=10 \rightarrow y = 3(10) - 10 \rightarrow y = 20$$

These 2 functions intersect at:

$$(5, 5) \text{ and } (10, 20) \quad \checkmark$$

DETAILS: Comprehensive up-to-date subject review of every US; these are referred to as the core countries tested on the exam. For certain questions, basic knowledge of the United States will be assumed. II. Free Response: 50% of your grade. This 100-minute section consists of four mandatory questions, each of which accounts for one-fourth of your total free response score. You should allot roughly 25 minutes, or one-quarter of the total time in the free response segment, for each essay. Comparative Free Response questions may require you to compare one or two of the core countries: Great Britain, France, China, and the former Soviet Union, with the developing nations of either India, Mexico, or Nigeria. To do this, you must be able to demonstrate knowledge of the politics of one of these developing nations. Here's a breakdown of coverage on the Comparative exam:

Topic	% of Exam
I. The Sources of Public Authority and Political Power	5-15%
II. Society and Politics	5-15%
III. The Relationship Between Citizen and State	5-15%
IV. Political and Institutional Frameworks	35-45%
V. Political Change	15-25%
VI. The Comparative Method	5-10%

About the Review Sections: As mentioned earlier, this book includes two reviews: one for United States Government and Politics, the other for Comparative Government and Politics. The United States Government and Politics Review covers all of the key information you'll need to score well on the United States exam. These topics include: Constitutional Framework, The Federal

Government Political Institutions and Special Interests Public Opinion and Voter Behavior Civil Rights and the Supreme Court We also provide a glossary for the United States Government and Politics exam Included are the key historical figures court cases programs laws etc that often appear on this AP exam The Comparative Review provides a thorough discussion of the material most often tested on the Comparative exam Special emphasis is placed on the governments and politics of Britain France The former Soviet Union The People s Republic of China A glossary for the Comparative Government and Politics exam enables you to brush up on terms that you are likely to encounter on this test

Scoring the Exam After the AP administrations more than 1 700 college professors and secondary school teachers are brought together to grade the exams during the first two weeks of June These readers are chosen from around the United States for their familiarity with the AP program

Scoring the Free Response Section The following guide explains typical free response scoring criteria

Score	Explanation of Score
8 9	The thesis is extremely well developed and is supported with concrete evidence all aspects of the question have been addressed thoroughly discussions presented are balanced
6 7	The thesis is defined and supported the evidence provided is very organized the essay may be slightly imbalanced with one strong argument and one weak argument and or discuss one topic more thoroughly than the next sporadic factual errors may appear
5	A basic argument or thesis is provided evidence given supports the argument or thesis but does not clearly connect with the argument or thesis only the formal facets of the question are dealt with and informal facets are not adequately covered not all aspects of the question are discussed
4	The thesis is not organized and is not referred to in the essay the essay is little more than a recounting of facts and events the essay may be overloaded with data only one facet of the questions may be discussed numerous factual errors may appear
3	The thesis is weak evidence provided in support does not apply to the thesis factual errors are apparent
2	The thesis is very weak little or no factual evidence is provided to support the thesis irrelevant and inaccurate information appears
1	An attempt is made to answer the question but the support given is insignificant and the coverage of topics is incomplete
0	The question is not answered with any significance

Free Response Part II Comparative only

Score	Explanation of Score
5	The thesis is extremely well developed and is supported with concrete evidence all aspects of the question have been addressed thoroughly discussions are presented in a balanced way
4	The thesis is defined and supported the evidence provided is very organized the essay may be slightly imbalanced with one strong argument and one weak argument likewise one topic may be more thoroughly explored than another may be marred by sporadic factual errors
3	A basic argument or thesis is presented evidence given supports the argument or thesis but does not clearly connect with the argument or thesis only the formal facets of the question are dealt with and informal facets are not adequately covered not all aspects of the question are discussed
2	The thesis is weak evidence provided in support does not apply to the thesis factual errors are apparent
1	An attempt is made to answer the question but the support given is insignificant and the coverage of topics is incomplete
0	The

question is not answered with any significance It would be extremely helpful to find someone who is willing to score your essay your teachers or anyone who is familiar with the test material If you do ask the person to assign each of your U S and Comparative Part I essays a score of 0 to 9 For your Comparative Part II essays use the 0 to 5 scale If you must grade your own essays try to be objective In addition you may want to give your essays three different grades For instance if you feel you did well try giving the essay a score of 5 6 or 7 to represent the various scores you may receive By underestimating what your score may be you are more likely to receive a better score on the actual exam Use the following formulae to determine your raw score for the Free Response section United States Exam Free Response Response 1 score \times 1 66 raw score Response 2 score \times 1 66 raw score Response 3 score \times 1 66 raw score Response 4 score \times 1 66 raw score Comparative Exam Response 1 score \times 1 66 raw score Response 2 score \times 1 66 raw score Response 3 score \times 3 raw score Response 4 score \times 3 raw score The Composite Score Once you have obtained your raw scores for both the Multiple Choice and the Free Response sections add the scores together to get your composite score United States Exam Multiple Choice raw score Free Response raw score composite score round to nearest whole number Score Essay 1 Score Essay 2 Score Essay 3 Score Essay 4 raw score Comparative Exam Multiple Choice raw score Free Response raw score composite score round to nearest whole number Now compare your composite score with the scale below Composite Score AP Grade 88 120 5 74 87 4 54 73 3 35 53 2 0 34 1 AP grades are interpreted as follows 5 extremely well qualified 4 well qualified 3 qualified 2 possibly qualified and 1 no recommendation Scores that Earn College Credit and or Advanced Placement Most colleges grant students who earn a 3 or above college credit and or advanced placement You should check with your school guidance office about specific college requirements Studying for Your AP Examination It is never too early to start studying The earlier you begin the more time you will have to sharpen your skills Do not procrastinate Cramming is not an effective way to study since it does not allow you the time needed to learn the test material It is very important for you to choose the time and place for studying that works best for you Some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep Other students may study during the day while waiting on a line or even while eating lunch Only you can determine when and where your study time will be most effective But be consistent and use your time wisely Work out a study routine and stick to it When you take the practice exam s try to make your testing conditions as much like the actual test as possible Turn your television and radio off and sit down at a quiet table free from distraction Make sure to time yourself As you complete the practice test s score your test s and thoroughly review the explanations to the questions you answered incorrectly but do not review too much during any one sitting Concentrate on one problem area at a time by reviewing the question and explanation and by studying our review s until you are confident that you completely understand the material Since you will be allowed to write in your test booklet during the actual exam you may want to write in the margins and spaces of this book when practicing However do not make miscellaneous notes on your answer sheet

Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering. Keep track of your scores. By doing so you will be able to gauge your progress and discover general weaknesses in particular sections. You should carefully study the reviews that cover the topics causing you difficulty as this will build your skills in those areas. To get the most out of your studying time we recommend that you follow the Study Schedule which corresponds to the exam you are taking. It details how you can best budget your time. If you are taking both exams do not try to study for each at the same time. Try alternating days by studying for the United States exam one day and the Comparative exam the next. **Test Taking Tips** Although you may be unfamiliar with tests such as the Advanced Placement exams there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties. Listed below are ways to help yourself become accustomed to the AP exam some of which may also be applied to other standardized tests. Become comfortable with the format of the AP Examination in Government and Politics that you are taking. When you are practicing to take the exam s simulate the conditions under which you will be taking the actual test s. You should practice under the same time constraints as well. Stay calm and pace yourself. After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual test much more confidently. Know the directions and format for each section of the exam. Familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the AP exam to avoid nervousness and the mistakes caused by being nervous. Work on the easier questions first. If you find yourself working too long on one question make a mark next to it in your test booklet and continue. After you have answered all of the questions that you can go back to the ones you have skipped. Use the process of elimination when you are unsure of an answer. If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess. If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer. Questions not answered will not be counted. Be sure that you are marking your answer in the circle that corresponds to the number of the question in the test booklet. Since the multiple choice section is graded by machine marking the wrong answer will throw off your score.
