Christopher Watkin,2009-03-03 Phenomenology or Deconstruction challenges traditional understandings of the relationship between phenomenology and deconstruction through new readings of the work of Maurice Merleau Ponty Paul Ricur and Jean Luc Nancy A constant dialogue with Jacques Derrida s engagement with phenomenological themes provides the impetus to establishing a new understanding of being and presence that exposes significant blindspots inherent in traditional readings of both phenomenology and deconstruction In reproducing neither a stock phenomenological reaction to deconstruction nor the routine deconstructive reading of phenomenology Christopher Watkin provides a fresh assessment of the possibilities for the future of phenomenology along with a new reading of the deconstructive legacy Through detailed studies of the philosophy of Merleau Ponty Ricur and Nancy he shows how a phenomenological tradition much wider and richer than Husserlian or Heideggerean thought alone can take account of Derrida s critique of ontology and yet still hold a commitment to the ontological This new reading of being and presence fundamentally re draws our understanding of the relation of deconstruction and phenomenology and provides the first sustained discussion of the possibilities and problems for any future deconstructive phenomenology      American Book Publishing Record ,2006      **Whitaker's Books in Print** ,1998      *Forthcoming Books* Rose Army,2003-04      **Subject Guide to Books in Print** ,1997      *Reason and Justice* Richard Dien Winfield,1988-07-08 This is a finely argued detailed and comprehensive systematic theory of justice brilliantly extending Hegelian ethics much as Rawls s Theory of Justice rehabilitated and extended classical Liberalism Winfield argues that justice like reason must be self grounding and that to achieve this it must be self determined The theory of justice must therefore abandon its appeal to metaphysically given or transcendentally constituted norms and instead determine the institutions of freedom In pursuit of this task Winfield offers insightful discussions of property relations morality the family capital and commodity relations economic and social justice and the state In contrast to Liberalism which sees the state as

instrumental to non political ends Winfield defends the democratic state as the just realization of freedom Throughout it is argued that justice is defined interactively where one s freedom is determined by how one s interactions respect and foster the institutional freedom of others Although the author s arguments proceed systematically at each stage he deals adroitly with the relevant major thinkers in the Western tradition not only with Hegel but with the ancients the classical liberals Marx and contemporaries such as Rawls *Current Publications in Legal and Related Fields* ,1989 *Books in Print* ,1991
