

Reason and Practice

A Modern Introduction to Philosophy

by [Kai Nielsen](#)

reviewed by [Jim Farmelant](#)

Early last June, I found in a used bookstore Kai Nielsen's 1971 philosophy textbook *Reason and Practice: A Modern Introduction to Philosophy*. As far as I can tell the 1971 edition is the only one ever published.

The book itself is probably the best introductory philosophy textbook that I have ever run across. It is clearly and lucidly written, and does not talk down to the reader. Although it starts out by presenting arguments that are fairly easy to comprehend, as the reader proceeds through the book, she will find herself confronted with increasingly sophisticated argumentation and analysis. Nielsen writes as an analytical philosopher, and finds nothing to be ashamed about on that score. In the first part of the book he takes on what else, but the issue of free will versus determinism. Nielsen, as he himself makes clear, is a determinist and a compatibilist. But in the book he approaches the issue in a Socratic manner, first presenting Holbach's case for hard determinism, then in the following chapter presents Dostoyevsky's case for free will as irrational choice, then in the chapter after that William James' case for free will. In the following chapters, Nielsen argues that determinism, while not conclusively demonstrable, constitutes a genuine hypothesis (that is, it is in principle falsifiable) and states why he considers it to be a reasonable hypothesis. He argues for compatibilism, and uses that to defeat some standard objections to determinism. He discusses the implications of determinism for issues concerning responsibility, including implications for criminal justice.

Indeed, he devotes an entire chapter to assessing the implications of determinism for criminal justice, titled appropriately enough

Reason And Practice A Modern Introduction To Philosophy

Arthur James Wells

Reason And Practice A Modern Introduction To Philosophy:

Reason and Practice Kai Nielsen, 1971 **Reason and Practice** Karl Nielsen, 1971 **Dictionary of Modern American Philosophers** John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading. While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers. In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought. *A Modern Introduction to Philosophy*, 1965 **Why People Stop Believing** Paul Chamberlain, 2018-01-12 This book addresses a growing need in apologetic literature. It is a response to the growing wave of Christian leaders who are rejecting Christianity and becoming some of its most ardent critics often supported by a plethora of new organizations arising to encourage such people to cut ties to their faith. This is a new challenge from a different breed of critics who are using their instant credibility and insider's knowledge of theology the Bible church history even apologetics to debunk the faith they once believed and promoted. They have taken aim at the foundations of Christianity including God the Scriptures miracles and the supernatural and Christianity's perceived inherent prohibition on free enquiry. Readers will be introduced to arguments against Christianity by these critics which they claim compelled them to leave followed by responses that use examples questions and nontechnical language to make the reasoning accessible. Every issue addressed has been raised by a former Christian leader and special attention has been paid to their precise formulations. The book makes the case that however convincing the critics' arguments may appear at first glance further analysis reveals them to be weaker than they appear and in many cases entirely unpersuasive. **The Journal of Philosophy**, 1971 **A Modern Introduction to Philosophy** Paul Edwards, Arthur Pap, 1965 The Modern Schoolman, 1971 Philosophical Anthropology Luigi Bogliolo, 1984 *The Dictionary of Modern American Philosophers: K-Q* John R. Shook, Richard T. Hull, 2005 This biographical dictionary contains around 900 entries on philosophers and other intellectuals who impacted philosophical thought in America from 1860 to the present i.e. 2005. *On The Track Of Reason* Kai Nielsen, 1992-04-09 Kai Nielsen is the author of more than a dozen books and over five hundred articles and he has lectured on four continents over a long fruitful and influential career. He has made his mark especially in moral theory social and political philosophy the philosophy of religion and metaphilosophy. In all these fields he has consistently both advocated

and exemplified the intellectual virtues of courage clarity candor and reason In this book a group of distinguished colleagues and friends honor Nielsen s career with essays bearing on issues of abiding importance to him over his more than thirty years of philosophical activity The resulting volume testifies both to the continuing value of Nielsen s work and to the liveliness and relevance of contemporary philosophy in these fields Publisher **Learning Directory** ,1972 Why be Moral? John Frederick Van Ingen,1994 Simplistic accounts of egoism have encouraged incomplete and superficial answers to the question Why should I be moral This work defends an interpretation of the question as a genuine and fundamental question of practical importance Detailed description of the egoist s planning language use and reason giving provide a strongest case analysis of the amoral egoistic option in the spirit of Plato s account of the perfectly unjust man The framework for an answer is offered which draws out key theoretical assumptions and practical consequences of an egoistic system whose potential adaptability has been consistently underestimated **Arguments and Reason-Giving** Matthew W. McKeon,2024 Arguments figure in our everyday practices of giving reasons For example we use arguments to advance reasons to explain why we believe or did something to justify our beliefs or actions to persuade others to do or to believe something and to advance reasons to worry or to fear that something is true This book is about our uses of arguments to advance their premises as reasons for believing their conclusions i e as reasons for believing that their conclusions are true What exactly is involved when you successfully use an argument to advance the premises as reasons for believing the conclusion Philosopher Matthew W McKeon suggests there is more involved than one might think Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office,1976 **The Publishers' Trade List Annual** ,1976 *The Revolution of Ideas* G. Stuart Watts,1982 **Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Wherein the Copyright Has Been Completed by the Deposit of Two Copies in the Office** Library of Congress. Copyright Office,1976 *The British National Bibliography* Arthur James Wells,1998 *Between Text, Meaning and Legal Languages* Jan Engberg,2023-12-04 This collection on legal interpretation in a broad sense presents state of the art linguistic approaches that are applied for studying interpretation and meaning generation in various legal settings It covers different aspects of the concepts like judicial dissent court argumentation investigating sociological meaning or comparing legal meaning in comparative law Scholars can turn to the volume for methods and findings to ground their own inquiries and students will find guides to topics and methods in the field of law meaning generation and language

Reason And Practice A Modern Introduction To Philosophy Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the ability of words has become more evident than ever. They have the ability to inspire, provoke, and ignite change. Such may be the essence of the book **Reason And Practice A Modern Introduction To Philosophy**, a literary masterpiece that delves deep into the significance of words and their impact on our lives. Compiled by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
