George, 2013-03-21 John Finnis is a pre eminent legal moral and political philosopher This volume contains over 25 essays by leading international scholars of philosophy and law who critically engage with issues at the heart of Finnis s work **The Social Psychology of Morality** Neil J.

MacKinnon, 2025-10-07 This incisive book defines and unpacks the concept of morality Neil J MacKinnon summarizes compares and evaluates theories of morality from both psychological and sociological perspectives which as separate disciplines are unable to capture the breadth and complexity of this topic **The Principles of Morals** Thomas

Fowler, 1887 *Christliche Ethik bei Schleiermacher - Christian Ethics according to Schleiermacher* Hermann

Peiter, 2010-04-09 No one is so intimately acquainted with Schleiermacher s Christian Ethics material or with the 1821 1822 first edition of his companion volume Christian Faith than Hermann Peiter The present volume is a collection of Peiter s nineteen essays and thirty reviews Extensive English summaries are offered for all this material and an English version for four of the essays Professor Peiter s summary of this volume reads as follows This book treats of praxis in the Christian life and of Christian responsibility for the world we have in common The following however forms a background for these considerations Schleiermacher reminds his Christian brethren who often deck themselves out with alien borrowed plumes from morals and metaphysics of their actual theme that of religion which he also designates as a kind or mode of faith Like Luther he also turns against both the practical misconception that considers faith itself to be a good work and the theoretical misconception that faith is a product of thinking a theory Whether a practitioner thinks to give thanks for one s own work or whether a theoretician hopes to find final fulfillment and justification in one s range of metaphysical ideas amounts to the same thing Faith is the courage to be Paul Tillich For Schleiermacher to want to have speculation thus metaphysics and praxis without religion is the nonsalutary intention of Prometheus who faintheartedly stole what he could have expected to possess in restful security If taken seriously the gods to use that pagan expression for once are that nature to which a human being belongs Each human being is their possession When one steals what the gods have one steals oneself can thank oneself for a robbery For a gift that is stolen one cannot possibly be thankful Only a pure gift awakens true joy A human being has the chance to receive the gift that one is or is not in case it is stolen not from a thief but from religion Thanks to one s birth both physical and spiritual one gains oneself and has oneself To steal means to take away to depreciate In contrast whoever has oneself from elsewhere is no longer extracted from oneself or from the one to whom one belongs **The Ontological**

**Foundation of Ethics, Politics, and Law** Francesco Belfiore, 2013-03-25 The revised edition of The Ontological Foundation of Ethics Politics and Law adds new concepts and discusses the views of additional thinkers The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect sensitivity and power each exerting a bidirectional selfish and moral activity Through this approach the notions of good morality society

and law are derived from the structure and functioning of the mind It follows that the solutions presented are the results of a discovery and not the consequence of a choice Otherwise stated ethics politics and law are given an ontological foundation For each topic considered Belfiore shows how his thought can reinterpret the views of other philosophers This new edition enriched in concepts and quotations appears as an innovative and highly stimulating contribution to the philosophical branches of ethics politics and law and will be of interest to both graduate students and philosophy scholars
