Rebel Hearts Journeys Within The Iras:

Rebel Hearts Kevin Toolis, 2011-12-12 Kevin Toolis investigated the lives of men and women who for the twenty five years of the IRA's war with Britain formed the backbone of its effort. Each chapter explores a world in which history and the republican and loyalist interpretation of it dominate lives and deaths. *Rebel Hearts* does not seek to explain the roots of the conflict in Northern Ireland in a direct historical narrative form but constructs and reconstructs its history through a series of connected and highly detailed individual portraits. The book is now updated with two long new chapters on all the latest developments. One of the strengths of Kevin Toolis's compelling, chilling, coldly brilliant book is that it reawakens the mind to the reality of why they took place. Easily the best book I have read on the Troubles. John Sweeney Literary Review. An honest and important book essential for anyone who wants to assess what has been happening for the past twenty five years in Northern Ireland and what is likely to happen next. IRA, The Bombs and the Bullets A. R. Oppenheimer, 2008-10-16 In this groundbreaking title A. R. Oppenheimer tells how the Irish Republican Army became the most adept and experienced insurgency group the world has ever seen through their bombing expertise and how after generations of conflict it all came to an end. The book is a comprehensive account of more than 150 years of Irish republican strategic, tactical and operational details and an analysis of the IRA's mission, doctrine, targeting and acquisition of weapons and explosives. As a leading expert on non conventional weapons and explosives Oppenheimer vividly presents the story behind the bombs: those who built and deployed them, those who had to deal with and dismantle them and those who suffered or died from them. He analyses where, how and why the IRA's 19,000 bombs were built, targeted and deployed and explores what the IRA was hoping to accomplish in its unrivaled campaign of violence and insurgency through covert acquisition, training, intelligence and counter intelligence. Beginning with the Fenian Dynamiters in the second half of the nineteenth century Oppenheimer fully describes and assesses the impact of the pre 1970s bombing campaigns in Northern Ireland and England and the evolution of strategies and tactics during the Troubles. He concludes with the decommissioning of an arsenal big enough to arm several battalions which included an entire home crafted missile system, an unsurpassed range of improvised explosive devices, IEDs and enough explosives to blow up several urban centres. The author scrutinises the level of deadly improvisation that became the hallmark of the Provisional IRA's expertise and the ingenuity in its pioneering IED timing, delay and disguise technologies and follows the arms race it carried on with the British Army and security services in a long war of mutual assured disruption. He also provides an insight into the bombing equipment and guns in the vast IRA inventory held at Irish Police HQ in Dublin.

Ending the Troubles John M. Burney, Andrew J. Auge, 2024-10-29 In June 1996 the British government convened multiparty talks trying to establish peace within Northern Ireland after thirty years of bloody civil war based on religious, cultural, political and economic tensions known as The Troubles. The talks included political parties from the two factions central to the conflict: Unionists, largely Protestants committed to retaining Northern

Ireland within the United Kingdom and Nationalists largely Catholics committed to the reunification of Northern Ireland with the independent Republic of Ireland Fundamental questions on national identity and democracy quickly turned these proceedings into faction bickering thus failing to produce any substantive progress The emergence of new leaders in 1997 Tony Blair prime minister of Great Britain and Bertie Ahern taoiseach in the Republic of Ireland created an opportunity for reenergizing the talks chaired by the former US senator George Mitchell with all parties making a concerted effort to reach a viable resolution among Nationalists and Unionists In the game students will represent the major parties in Northern Ireland as they reconvene at the multiparty talks in 1997 to find ways to reconcile two competing visions of Northern Irish nationalism or at least find a way for each community to tolerate one another's participation in a common constitutional arrangement Much is at stake for another failure could lead to a full resumption of the civil war
