Rebellious Civil Society Popular Protest And Democratic Consolidation In Poland 1989 1993:

Rebellious Civil Society Grzegorz Ekiert, Jan Kubik, 2001-08-03 Poland is the only country in which popular protest and mass opposition epitomized by the Solidarity movement played a significant role in bringing down the communist regime This book the first comprehensive study of the politics of protest in postcommunist Central Europe shows that organized protests not only continued under the new regime but also had a powerful impact on Poland s democratic consolidation Following the collapse of communism in 1989 the countries of Eastern Europe embarked on the gargantuan project of restructuring their social political economic and cultural institutions The social cost of these transformations was high and citizens expressed their discontent in various ways Protest actions became common events particularly in Poland In order to explain why protest in Poland was so intense and so particularized Grzegorz Ekiert and Jan Kubik place the situation within a broad political economic and social context and test it against major theories of protest politics They conclude that in transitional polities where conventional political institutions such as parties or interest groups are underdeveloped organized collective protest becomes a legitimate and moderately effective strategy for conducting state society dialogue The authors offer an original and rich description of protest movements in Poland after the fall of communism as a basis for developing and testing their ideas They highlight the organized and moderate character of the protests and argue that the protests were not intended to reverse the change of 1989 but to protest specific policies of the government This book contributes to the literature on democratic consolidation on the institutionalization of state society relationship and on protest and social movements It will be of interest to political scientists sociologists historians and policy advisors Grzegorz Ekiert is Professor of Government Harvard University Jan Kubik is Associate Professor of Political Science Rutgers University

Reformblockaden in Der Wirtschaftspolitik Heiko Pleines, 2008 Heiko Pleines untersucht im Rahmen einer Analyse der Politikfelder Agrarpolitik Kohlerestrukturierung und Privatisierung den Einfluss von Wirtschaftslobbies auf die Politik vergleichend f r Polen Russland und die Ukraine Der Schwerpunkt der Analyse liegt dabei auf Reformblockaden d h es wird untersucht unter welchen Bedingungen die Einflussnahme nichtstaatlicher Akteure eine politische Entscheidungsfindung verhindert Ein besseres Verst ndnis der Ursachen und Formen von Reformblockaden stellt einen wesentlichen Beitrag zur Erkl rung politischer Entscheidungsprozesse dar

Intellektuelle in der Opposition Agnes Arndt, 2007 *Popular Politics and the Path to Durable Democracy* Mohammad Ali Kadivar, 2022-11-22 A groundbreaking account of how prolonged grassroots mobilization lays the foundations for durable democratization When protests swept through the Middle East at the height of the Arab Spring the world appeared to be on the verge of a wave of democratization Yet with the failure of many of these uprisings it has become clearer than ever that the path to democracy is strewn with obstacles Mohammad Ali Kadivar examines the conditions leading to the success or failure of democratization shedding vital new light on how prodemocracy mobilization affects the fate of new democracies Drawing on a wealth of new evidence Kadivar shows how the longest episodes of

prodemocracy protest give rise to the most durable new democracies He analyzes more than one hundred democratic transitions in eighty countries between 1950 and 2010 showing how more robust democracies emerge from lengthier periods of unarmed mobilization Kadivar then analyzes five case studies South Africa Poland Pakistan Egypt and Tunisia to investigate the underlying mechanisms He finds that organization building during the years of struggle develops the leadership needed for lasting democratization and strengthens civil society after dictatorship Popular Politics and the Path to Durable Democracy challenges the prevailing wisdom in American foreign policy that democratization can be achieved through military or coercive interventions revealing how lasting change arises from sustained nonviolent grassroots mobilization

Uncivil Society? Petr Kopecky, Cas Mudde, 2005-08-16 This volume makes a significant contribution to the debate about the development of post communist civil society by focusing on its alleged dark side i e on the groups that are excluded from civil society on both conceptual and normative grounds The chapters written by specialists in the field explore in rich empirical detail the complexities involved when such groups like the skinheads in Hungary the farmers Self Defence movement in Poland or the war veterans in Croatia challenge the state engage in community activism or get involved in protest actions It also offers a contrasting perspective by focusing on similar activities by the alleged pro democratic actors of civil society such as Impulse 99 in the Czech Republic The book maintains that political protest or contentious politics should be included under a broad and positive development of associational activity in the region Uncivil Society Contentious Politics in Post Communist Europe is a fascinating study and will be of interest to scholars of Eastern European politics and history

Capital, Coercion, and Postcommunist States Gerald M. Easter, 2012-09-18 The postcommunist transitions produced two very different types of states The contractual state is associated with the countries of Eastern Europe which moved toward democratic regimes consensual relations with society and clear boundaries between political power and economic wealth The predatory state is associated with the successors to the USSR which instead developed authoritarian regimes coercive relations with society and poorly defined boundaries between the political and economic realms In Capital Coercion and Postcommunist States Gerald M Easter shows how the cumulative result of the many battles between state coercion and societal capital over taxation gave rise to these distinctive transition outcomes Easter s fiscal sociology of the postcommunist state highlights the interconnected paths that led from the fiscal crisis of the old regime through the revenue bargains of transitional tax regimes to the eventual reconfiguration of state society relations His focused comparison of Poland and Russia exemplifies postcommunism s divergent institutional forms The Polish case shows how conflicts over taxation influenced the emergence of a rule of law contractual state social market capitalism and civil society The Russian case reveals how revenue imperatives reinforced the emergence of a rule by law predatory state concessions style capitalism and dependent society

Building Civil Society and Democracy in New Europe Sven Eliasson, 2008 The European enlargement process culminating in 2004 was as a follow up to the Wende and the implosion of the Russian empire an event of the same magnitude as 1815 and 1919 Like 1918/19 it was an exit into history a momentous event in post Westphalian Europe Even if acceptance of ten new countries was premature it was appropriate to the moment history provided The presence of the new kids on the block meant both problems and prospects The end of the cold war meant the fall of the iron curtain but a mental remnant of the curtain remains in terms of attitudes regarding civility corruption and transparency and expectations for democratic politics Several of the new countries are late children of 1848 For them entering NATO was more important than joining the EU and also preceded EU membership Poland is bigger than the other 2004 countries together and has a heavy historical legacy It is as Germany used to be imprinted by its special path between East and West and fear of being encircled by enemies Although the Building of Civil Society and Democracy in countries in transformation can draw on experiences from the countries already within the EU there is no primrose path for EU integration It is moreover an irony that the new member states as a result of the expectations for post Communist politics build institutions of a kind that are no longer sufficiently efficient for old Europe The new countries became a full scale experiment in rule by experts now by neo liberals instead of Communists A common European public sphere and civil society might emerge but its form remains visible only at the horizon

Falk, 2003-01-10 Discusses one of the major currents leading to the fall of communism Falk examines the intellectual dissident movements in Poland Czechoslovakia and Hungary from the late 1960s through to 1989 In spite of its historic significance no other comprehensive survey has appeared on the subject In addition to the huge list of written sources from samizdat works to recent essays Falks sources include interviews with many personalities of those events as well as videos

and films including Oscar winners Civil Society from Abroad Grzegorz Ekiert,2000 **A Sportive Matka Polka** Nameeta Mathur,2009 This book examines the interaction between nationalism and feminism in modern Polish women s physical culture from the late nineteenth century until the end of the twentieth century Unlike most western countries where sportswomen were typically marginalized in their athletic endeavors Polish female athletes earned greater respect and recognition in their physical culture On many occasions and for varied reasons women s athleticism in Poland was a source of immense pride and prestige for both the state and society This form of acceptance however does not suggest that sportswomen faced no discrimination in their efforts to become sportive Women s physicality remained the subject of intense debate particularly when the socio economic conditions worsened and threatened the survival of families Still despite the patriarchal and other barricades the Polish national struggles for independence and the emergence of the New Woman created significant institutional and ideological spaces for sportswomen to build their physical culture Accordingly this book enriches the histories of Poland and modern Europe as well as women s and sports studies **Political Priorities Between East and West** ,2002 **Development and Society** ,2006 Divide and Pacify Pieter Vanhuyse,2006-09-30 Despite dramatic increases in poverty unemployment and social inequalities the Central and Eastern European transitions from communism to market democracy in the 1990s have been remarkably peaceful This book proposes a new explanation for this unexpected political quiescence It shows how reforming governments in Poland Hungary and the Czech Republic have been able to prevent massive waves of strikes and protests by the strategic use of welfare state programs such as pensions and unemployment benefits Divide and Pacify explains how social policies were used to prevent massive job losses with softening labor market policies or to split up highly aggrieved groups of workers in precarious jobs by sending some of them onto unemployment benefits and many others onto early retirement and disability pensions From a narrow economic viewpoint these policies often appeared to be immensely costly or irresponsibly populist Yet a more inclusive social scientific perspective can shed new light on these seemingly irrational policies by pointing to deeper political motives and wider sociological consequences **Political Participation in Post-communist Central and Eastern Europe** Samuel Henry Barnes,2004
