**Mission to the Moon** Mark Cheverton, 2017-07-04 This adventure series is created especially for readers who love the fight of good vs evil magical academies like Hogwarts in the Harry Potter saga and games like Minecraft, Terraria, and Pokemon GO. Entity303, the cruel villain who has poisoned vanilla Minecraft with dangerous and bizarre mods, was able to escape the sky islands of Mystcraft, leaving the surface of Minecraft in a giant rocket. Gameknight999 knows Weaver must be sent back into the past so the timeline can be repaired and the eventual destruction of all the Minecraft worlds can be stopped. But to send him back, they must find the time-traveling portal that brought Weaver to the future. And only Entity303 knows the location. They have no choice. Gameknight999 and his friends must follow behind, landing on a strange and barren lunar landscape, a world stranger and more alien in more ways than one than any other Minecraft mod. It's here that they must battle outer space mobs, combat monster bosses, and find Entity303. But as they close in on the terrible user, Gameknight999 will discover Entity303's real scheme, and the very thought of what the evil user plans will fill everyone with terror. Can the User, that is not a user, catch Entity303 as he travels through the cold reaches of the universe before it's too late? Come along with Gameknight999 on his most thrilling adventure yet to a biome unlike anything else in the Overworld: outer space.

**Terrors of the Forest** Mark Cheverton, 2017-03-14 New York Times Bestselling Author The world of Minecraft comes to life in this thrilling original adventure. Gameknight999 reenters Minecraft to find it completely changed. There are new monsters that he's never seen before: giants and skeleton druids and pinch beetles and king spiders and mistwolves. Villages are larger than ever and more heavily fortified. Minecraft had become much more dangerous. Even the very trees had changed, with some of them reaching up taller than the User, that is not a user. Ever thought was imaginable. There's a diamond block portal outside of Crafter's village, and rumors are spreading that a strange user was seen coming out of the portal with a young boy before they disappeared into another portal, leaving behind a square hole one block deep with a ring of flowers around it. Gameknight recognizes it as the portal to reach the Twilight Forest mod. But how can there be mods here in the vanilla Minecraft? The User, that is not a user, follows the trail and finds odd mentions of 303 and White Castle. But what do the clues mean? Just how dangerous is this new user to Minecraft, and where is he taking the young NPC? Only Gameknight999 will be able to find out.
