Reincarnation. The cycle of birth, death and rebirth in Hinduism Yevgeniya Marmer, 2020-09-07 Seminar paper from the year 2013 in the subject Theology Hinduism grade 2 1 University of Hildesheim language English abstract The following paper will deal with the concept of the cycle of birth death and rebirth in the Hindu religion as Hindus in contrary to the Western cultures and monotheistic religions believe that there is life after death and before the present life there was a beforelife because they believe that it does not make sense that people suddenly appear from nowhere meaning not the biological body but the soul or the spirit First a definition of the different concepts of afterlife in different metaphysical models and of the term reincarnation from its semantic point of view and how it is defined in other religions will be given Furthermore Hinduism itself will be introduced as it is important to understand the essence of this religion to be able to understand the concept of reincarnation Additionally the concept of reincarnation will be described That includes the processes of birth death and rebirth Finally the arguments in favor and against the theory of reincarnation will be discussed The question about what happens after death is a philosophical one which has been worrying humanity for centuries By trying to categorize the different concepts regarding what happens after death three concepts varying among cultures and religions can be differentiated First there is the concept of denial which states that the existence of the individual ends with their death as it is widely believed in the Western world The second one is the concept of completion in many religions as for example in Christianity the human life is seen as a preparation for a life after somewhere else in a different state of existence like Heaven Hell Purgatory Limbus etc And the third concept is the concept of rebirth meaning that the mental part of the person may it be called the soul or the spirit is reborn many times in new bodies on earth Tibetan Buddhist Essentials: A Study Guide for the 21st Century Tenzin Tharpa, This text is best viewed in pdf format Download this and other free original texts from my website TenzinTharpa.com Tibetan Buddhist Essentials is a complete guide to Tibetan Buddhism A unique text series presenting an expansive modern view of Tibetan Buddhism for students of diverse backgrounds and sensibilities It shares an authentic yet progressive presentation of Tibetan Buddhism in an easily accessible no nonsense format

The Buddha's Teaching G. A. Somaratne, 2021-06-25 This book approaches the Dhamma the Buddha's teaching from a Buddhist perspective viewing various individual teachings presented in hundreds of early discourses of Pali canon comprehending them under a single systemic thought of a single individual called the Buddha It explicates the structure of this thought going through various contextual teachings and teaching categories of the discourses treating them as necessary parts of a liberating thought that constitutes the right view of one who embraces the Buddha's teaching as his or her sole philosophy of life It interprets the diverse individual dhammas as being in congruence with each other and as contributory to forming the whole of the Buddha's teaching the Dhamma By exploring some selected topics such as ignorance configurations not self and nibbāna in thirteen chapters the book enables readers to understand the whole the Dhamma in relation to the parts the dhammas and the parts in relation to the whole while realizing the importance of studying every single dhamma category or topic not for its own sake but for understanding the entirety of the teaching This way of viewing and explaining the teachings of
