collection and analysis anomaly and specification based detection and network intrusion detection Research in Attacks, Intrusions and Defenses Davide Balzarotti, Salvatore J. Stolfo, Marco Cova, 2012-09-26 This book constitutes the proceedings of the 15th International Symposium on Research in Attacks Intrusions and Defenses former Recent Advances in Intrusion Detection RAID 2012 held in Amsterdam The Netherlands in September 2012 The 18 full and 12 poster papers presented were carefully reviewed and selected from 84 submissions The papers address all current topics in virtualization attacks and defenses host and network security fraud detection and underground economy web security intrusion detection Recent Advances in Intrusion Detection Engin Kirda, Somesh Jha, Davide Balzarotti, 2009-09-30 On behalf of the Program Committee it is our pleasure to present the proceedings of the 12th International Symposium on Recent Advances in Intrusion Detection systems RAID 2009 which took place in Saint Malo France during September 23 25 As in the past the symposium brought together leading searchers and practitioners from academia government and industry to discuss intrusion detection research and practice There were six main sessions presenting full research papers on anomaly and specification based approaches malware detection and prevention network and host intrusion detection and prevention intrusion detection for mobile devices and high performance intrusion detection Furthermore there was a poster session on emerging research areas and case studies The RAID 2009 Program Committee received 59 full paper submissions from all over the world All submissions were carefully reviewed by independent viewers on the basis of space topic technical assessment and overall balance The final selection took place at the Program Committee meeting on May 21 in Oakland California In all 17 papers were selected for presentation and publication in the conference proceedings As a continued feature the symposium accepted submissions for poster presentations which have been published as extended abstracts reporting early stage research demonstration of applications or case studies Thirty posters were submitted for a numerical review by an independent three person sub committee of the Program Committee based on novelty description and evaluation The sub committee recommended the acceptance of 16 of these posters for presentation and publication The success of RAID 2009 depended on the joint effort of many people

Recent Advances in Intrusion Detection Alfonso Valdes, Diego Zamboni, 2006-01-21 This book constitutes the refereed proceedings of the 8th International Symposium on Recent Advances in Intrusion Detection held in September 2005 The 15 revised full papers and two practical experience reports were carefully reviewed and selected from 83 submissions The papers are organized in topical sections on worm detection and containment anomaly detection intrusion prevention and response intrusion detection based on system calls and network based as well as intrusion detection in mobile and wireless networks **Recent Advances in Intrusion Detection** Erland Jonsson, Alfonso Valdes, Magnus Almgren, 2004-10-01 On behalf of the Program Committee it is our pleasure to present to you the proceedings of the 7th Symposium on Recent Advances in Intrusion Detection RAID 2004 which took place in Sophia Antipolis French Riviera France September 15 17 2004 The symposium brought together leading researchers and practitioners from academia government and industry to

discuss intrusion detection from research as well as commercial perspectives We also encouraged discussions that dressed issues that arise when studying intrusion detection including information gathering and monitoring from a wider perspective Thus we had sessions on detection of worms and viruses attack analysis and practical experience reports The RAID 2004 Program Committee received 118 paper submissions from all over the world All submissions were carefully reviewed by several members of the Program Committee and selection was made on the basis of scientific novelty importance to the field and technical quality Final selection took place at a meeting held May 24 in Paris France Fourteen papers and two practical experience reports were selected for presentation and publication in the conference proceedings In addition a number of papers describing work in progress were selected for presentation at the symposium The keynote address was given by Bruce Schneier of Counterpane Systems Hakan Kvarnstrom of TeliaSonera gave an invited talk on the topic Fighting Fraud in Telecom Environments A successful symposium is the result of the joint effort of many people

Recent Advances in Intrusion Detection Herve Debar, Ludovic Me, S. Felix Wu, 2003-06-26 Since 1998 RAID has established its reputation as the main event in research on intrusion detection both in Europe and the United States Every year RAID gathers researchers security vendors and security practitioners to listen to the most recent research results in the area as well as experiments and deployment issues This year RAID has grown one step further to establish itself as a well known event in the security community with the publication of hardcopy proceedings RAID 2000 received 26 paper submissions from 10 countries and 3 continents The program committee selected 14 papers for publication and examined 6 of them for presentation In addition RAID 2000 received 30 extended abstracts proposals 15 of these extended abstracts were accepted for presentation tended abstracts are available on the website of the RAID symposium series <http://www.raid-symposium.org> We would like to thank the technical program committee for the help we received in reviewing the papers as well as all the authors for their participation and submissions even for those rejected As in previous RAID symposiums the program alternates between fundamental research issues such as new technologies for intrusion detection and more practical issues linked to the deployment and operation of intrusion detection systems in a real environment Five sessions have been devoted to intrusion detection technology including modeling data mining and advanced techniques

Recent Advances in Intrusion Detection Robin Sommer, Davide Balzarotti, Gregor Maier, 2012-02-11 This book constitutes the proceedings of the 14th International Symposium on Recent Advances in Intrusion Detection RAID 2011 held in Menlo Park CA USA in September 2011 The 20 papers presented were carefully reviewed and selected from 87 submissions The papers are organized in topical sections on application security malware anomaly detection Web security and social networks and sandboxing and embedded environments

Recent Advances in Intrusion Detection Somesh Jha, Robin Sommer, Christian Kreibich, 2010-09-02 This book constitutes the refereed proceedings of the 13th International Symposium on Recent Advances in Intrusion Detection RAID 2010 held in Ottawa Canada in September 2010 The papers are organized in topical sections on network protection

high performance malware detection and defence evaluation forensics anomaly detection as well as web security *Recent Advances in Intrusion Detection* Engin Kirda, Somesh Jha, Davide Balzarotti, 2010-05-03 On behalf of the Program Committee it is our pleasure to present the proceedings of the 12th International Symposium on Recent Advances in Intrusion Detection systems RAID 2009 which took place in Saint Malo France during September 23-25. As in the past the symposium brought together leading researchers and practitioners from academia government and industry to discuss intrusion detection research and practice. There were six main sessions presenting full research papers on anomaly and specification based approaches malware detection and prevention network and host intrusion detection and prevention intrusion detection for mobile devices and high performance intrusion detection. Furthermore there was a poster session on emerging research areas and case studies. The RAID 2009 Program Committee received 59 full paper submissions from all over the world. All submissions were carefully reviewed by independent reviewers on the basis of space topic technical assessment and overall balance. The final selection took place at the Program Committee meeting on May 21 in Oakland California. In all 17 papers were selected for presentation and publication in the conference proceedings. As a continued feature the symposium accepted submissions for poster presentations which have been published as extended abstracts reporting early stage research demonstration of applications or case studies. Thirty posters were submitted for a numerical review by an independent three person sub-committee of the Program Committee based on novelty description and evaluation. The sub-committee recommended the acceptance of 16 of these posters for presentation and publication. The success of RAID 2009 depended on the joint effort of many people.

Recent Advances in Intrusion Detection Andreas Wespi, Giovanni Vigna, Luca Deri, 2002-10-02 Recent Advances in Intrusion Detection Richard Lippmann, Engin Kirda, Ari Trachtenberg, 2008-09-18 On behalf of the Program Committee it is our pleasure to present the proceedings of the 11th International Symposium on Recent Advances in Intrusion Detection RAID 2008 which took place in Cambridge Massachusetts USA on September 15-17. The symposium brought together leading researchers and practitioners from academia government and industry to discuss intrusion detection research and practice. There were six main sessions presenting full edged research papers: rootkit prevention malware detection and prevention high performance intrusion and evasion web application testing and evasion alert correlation and worm detection and anomaly detection and network traffic analysis a session of poster on emerging research areas and case studies and two panel discussions: Government Investments Successes Failures and the Future and Life after Antivirus What Does the Future Hold. The RAID 2008 Program Committee received 80 paper submissions from all over the world. All submissions were carefully reviewed by at least three independent reviewers on the basis of space topic technical assessment and overall balance. Final selection took place at the Program Committee meeting on May 23rd in Cambridge MA. Twenty papers were selected for presentation and publication in the conference proceedings and four papers were recommended for resubmission as poster presentations. As a new feature this year the symposium accepted submissions for poster presentations which have been

published as extended abstracts reporting gear stage research demonstration of applications or case studies. Thirty-nine posters were submitted for a numerical review by an independent three-person subcommittee of the Program Committee based on novelty, description, and evaluation. The subcommittee chose to recommend the acceptance of 16 of these posters for presentation and publication.
