Modern Trends in Global Banking Development Viatcheslav V. Chiline,2002 Unlike many other works in this area this research is devoted to the micro issues of banking There are many excellent texts that study the macroeconomics of banking and the role of financial institutions in a monetary economy This area micro issues of banking is important Bank professionals require a thorough grounding in the micro foundations of banking if they are to make important managerial decisions or implement banking policies What exactly will be the nature of the future of banking These pages provide you with comprehensive insight into where banking is going In order to provide a thorough understanding of the subject this study begins by looking at the traditional theory of banking A bank is a financial firm which offers loan and deposit products on the market The intermediary role played by banks another area of our interest is the reason why banks exist in modern

economies The main objective of Chapter 2 is to provide an overview of bank structures and related issues in industrialised countries developing economies and emerging markets in Eastern Europe Chapter 2 also considers various stylised facts on contemporary banking It reveals some large differences between countries in the way banks operate It reviews various performance measures of banks and considers the results of several investigations of bank performance The remaining part of the research analyses modern trends of Global banking development During the course of study the following trends were recognised as major and the most noteworthy ones Consolidation Globalisation Development of Information Technology Risk Management Competition The Euro Regulation Development in Asset Management **Recent Developments in**
