The Departure of an Apostle Alexander N. Kirk, 2015-11-05 What was Paul's attitude toward his own death? How did he act and what did he say and write in view of it? What hopes did he hold for himself beyond death? Alexander N. Kirk explores these questions through a close reading of four Pauline letters that look ahead to Paul's death and other relevant texts in the first two generations after Paul's death AD 70-160. The author studies portraits of the departed Paul in Acts 1, Clement's letters, Ignatius Polycarp's letter to the Philippians, and the Martyrdom of Paul. He also examines portraits of the departing Paul in 1 and 2 Corinthians, Philippians, and 2 Timothy, arguing that Paul's death did not primarily present an existential challenge but a pastoral one. Although touching upon several areas of recent scholarly interest, Alexander N. Kirk sets forth a new research question and fresh interpretations of early Christian and Pauline texts.

Petrus Alexandrinus Wolfgang Grünstäudl, 2014-02-24 2 Peter's existence is first attested by Origenes without doubt, but it is hardly possible to determine its historical context in the New Testament exegesis as a text without a home. Michael Gilmour: Through the intensive analysis of the relationships of 2 Peter to other Petrine pseudepigraphs of the early Christendom and the comprehensive check of possible earlier traces of a reception of this letter, Wolfgang Grünstäudl comes to the conclusion that 2 Peter is a text of the Alexandrian Christendom in the second half of the second century. For the further exegetical work on 2 Peter, it is above all the proof of a literary dependence of 2 Peter on the Greek-Athiopian Petrusapokalypse and the theological proximity to the circle of Clemens of Alexandria of particular importance.

The Early Text of the New Testament Charles E. Hill, Michael J. Kruger, 2012-06-14 The Early Text of the New Testament aims to examine and assess from our earliest extant sources the most primitive state of the New Testament text now known. What sort of changes did scribes make to the text? What is the quality of the text now at our disposal? What can we learn about the nature of textual transmission in the earliest centuries? In addition to exploring the textual and scribal culture of early Christianity, this volume explores the textual evidence for all the sections of the New Testament. It also examines the evidence from the earliest translations of New Testament writings and the citations or allusions to New Testament texts in other early Christian writers.

The Question of Canon Michael J. Kruger, 2020-05-21 For many years now the topic of the New Testament canon has been the main focus of my research and writing. It is an exciting field of study that probes into questions that have long fascinated both scholars and laymen alike: namely, when and how these 27 books came to be regarded as a new scriptural deposit. But the story of the New Testament canon is bigger than just the when and the how. It is also, and perhaps most fundamentally, about the why. Why did Christians have a canon at all? Does the canon exist because of some later decision or action of the second or third century church? Or did it arise more naturally from within the early Christian faith itself? Was the canon an extrinsic phenomenon or an intrinsic one? These are the

questions this book is designed to address And these are not micro questions but macro ones They address foundational and paradigmatic issues about the way we view the canon They force us to consider the larger framework through which we conduct our research whether we realized we had such a framework or not Of course we are not the first to ask such questions about why we have a canon Indeed for many scholars this question has already been settled The dominant view today as we shall see below is that the New Testament is an extrinsic phenomenon a later ecclesiastical development imposed on books originally written for another purpose This is the framework through which much of modern scholarship operates And it is the goal of this volume to ask whether it is a compelling one To be sure it is no easy task challenging the status quo in any academic field But we should not be afraid to ask tough questions Likewise the consensus position should not be afraid for them to be asked

Second Clement William Varner,2020-09-15 The document called Second Clement was not a letter nor was it written by Clement It originated as an address to a congregation and is preserved among the group of writings known as the Apostolic Fathers Unlike First Clement it is one of the least known of these writings yet preserves a fascinating window into the life of early believers Its overall message is that Christians should render a payback to God for his grace shown to them in Christ Second Clement offers a fascinating window into the life of the early church

The New Testament in the Apostolic Fathers Oxford Society of Historical Theology,1905 The Beloved Apostle? Michael J. Kok,2017-11-03 Second century Christians had a significant role in shaping the import of the literary sources that they inherited from the first century through their editorial revisions and the church traditions that they appended to them Michael J Kok critically investigates the supposed clues that encouraged select Christian intellectuals to infer that John one of Jesus chosen twelve apostles was the mysterious disciple whom Jesus loved and to ascribe the fourth canonical Gospel as well as four other New Testament books back to him Kok outlines how the image of Saint John of Ephesus was constructed Not all early Christians approved of the fourth canonical Gospel and some expressed strong reservations about its theology preferring to link it with a heretical adversary rather than with an authoritative Christian founder figure Discover how the moves made in the second century were crucial for determining whether this Gospel would be preserved at all for posterity much less as part of the scriptural collection of the developing Orthodox Church

Das Thomasevangelium Jörg Frey, Enno Edzard Popkes, Jens Schröter, 2008 Das Thomasevangelium eine Schrift aus Codex II der Nag Hammadi Schriften gehört zu den umstrittensten Zeugnissen des frühen Christentums Während einige Forscher darin eine Schrift sehen die sehr alte Überlieferungen von Jesus bewahrt hat und deshalb näher an Jesus heranführen könnte als die neutestamentlichen Evangelien wird es von anderen für einen Text gehalten der bereits theologiegeschichtliche Entwicklungen des ersten Jahrhunderts voraussetzt und auf sie in eigener Weise reagiert Die Beiträge des vorliegenden Sammelbandes sind vor dem Hintergrund dieser Diskussion entstanden Sie gehen zurück auf eine Tagung auf der Vertreter dieser Auslegungstraditionen ihre unterschiedlichen Interpretationsansätze und methodischen Zugangsweisen vorgestellt und miteinander ins Gespräch gebracht haben Die Zusammenstellung der Beiträge gewährt deshalb einerseits einen Einblick in das facettenreiche Spektrum der gegenwärtigen Forschungsdiskussion zur Entstehung und zum theologischen Profil dieses Werkes Andererseits zeigt sie neue Zugangsweisen auf durch welche die Einordnung des Thomasevangeliums in das Spektrum der frühchristlichen Literatur etwa im Blick auf sein Verhältnis zu anderen Nag Hammadi Schriften und zur Gnosis auf eine neue Grundlage gestellt wird
