**Playing God** June Goodfield,1977      **Unprecedented Choices** Audrey R. Chapman,1999-01-01 We face unprecedented choices in genetics for which traditional ethics provides little direct guidance What role can the religious community play in addressing the ethical and theological issues that even scientists now acknowledge as urgent cover      *Science, Theology, and Ethics* Ted Peters,2017-03-02 Science challenges faith to seek fuller understanding and faith challenges science to be socially and ethically responsible This book begins with faith in God the Creator of the world and then expands our understanding of creation in light of Big Bang cosmology and new discoveries in physics Examining the expanding frontier of genetic research Ted Peters draws out implications for theological understandings of human nature and human freedom Issues discussed include methodology in science and theology eschatology in cosmology and theology freedom and responsibility in evolution and theology and genetic determinism genetic engineering and cloning in relation to freedom the commodification of human life and equitable distribution of the fruits of genetic technology The dialogue model of relationship between science and religion proposed in this book provides a common ground for the disparate voices among theologians scientists and world religions This common ground has the potential to breathe new life into current debates about the world in which we live move and have our being      *Ethics for a Brave New World, Second Edition (Updated and Expanded)* John S. Feinberg,Paul D. Feinberg,2010-11-04 Aldous Huxley s 1932 book Brave New World foresees a world in which technological advances have obliterated morality and freedom John Feinberg and Paul Feinberg in the first edition of Ethics for a Brave New World noted how Huxley landed frighteningly close to the truth Their book responded to ethical crises such as abortion euthanasia capital punishment and genetic engineering by looking to Scripture for principles to guide us through the moral quagmires of our time Now dramatically updated and expanded this edition of Ethics for a Brave New World seeks to maintain the relevance rigorous scholarship and biblical faithfulness of the first edition While many of the topics covered in the book remain the same John Feinberg has revised each chapter to keep it current with contemporary trends and to respond to the most recent scholarship There is a new chapter on stem cell research and greatly expanded material on issues such as homosexuality and genetic engineering This important resource will be a valuable guide for students and those seeking answers to ethical dilemmas      **The Biology of Hematopoiesis** Nicholas Dainiak,1990 This work presents technical material on the most recent developments in the field of blood cell production including the isolation and purification of haematopoietic stem cells their characteristics in gene transfer and expression and the applications of purified stem cells and recombinant growth factors in bone marrow therapy Comprehensive in scope the book includes reviews of the general history and status of the entire field      *The Journal of Medicine and Philosophy* ,1986      **Environmental Health Ethics** David B. Resnik,2012-06-11 Environmental Health Ethics illuminates the conflicts between protecting the environment and promoting human health In this study David B Resnik develops a method for making ethical decisions on

environmental health issues He applies this method to various issues including pesticide use antibiotic resistance nutrition policy vegetarianism urban development occupational safety disaster preparedness and global climate change Resnik provides readers with the scientific and technical background necessary to understand these issues He explains that environmental health controversies cannot simply be reduced to humanity versus environment and explores the ways in which human values and concerns health economic development rights and justice interact with environmental protection

**Genetic Engineering, Human Genetics, and Cell Biology**, 1980      **The Concise Encyclopedia of the Ethics of New Technologies**, 2000-11-06 The ethical assessment of new technologies raises two principal concerns the need to develop effective policies and legislation and the reconsideration of the ethical frameworks in which these policies and laws are developed The importance of rapid accurate examinations of tensions between Philosophy and Law and the relationship between philosophical principles and empirical data has never been greater The Concise Encyclopedia of Ethics of New Technologies includes 23 articles previously published in the highly acclaimed Encyclopedia of Applied Ethics nine updated articles and five new articles commissioned especially for this volume Over half of the previously published articles include updated facts and bibliographic citations Authors of genetics articles have updated their works to include the most recent developments and publications New articles include Cloning Geneticization Health Technology Assessment Intrinsic and Instrumental Value and Novel Foods Articles fall into these subject categories Medical Ethics Scientific Ethics Theories of Ethics Environmental Ethics Legal Ethics Ethical Concepts      Literatur- und Sprachentwicklung in Osteuropa im 20. Jahrhundert, 1982      Evolutionary and Molecular Biology Robert J. Russell, William R. Stoeger, Francisco José Ayala, 1998 This collection of twenty two research papers explores the creative interaction between evolutionary and molecular biology philosophy and theology It is the result of the third of five international research conferences co sponsored by the Vatican Observatory Rome and the Center for Theology and the Natural Sciences Berkeley The over arching goal of these conferences is to support the engagement of constructive theology with the natural sciences and to investigate the philosophical and theological elements in ongoing theoretical research in the natural sciences This series of conferences builds on the initial 1987 Vatican Observatory conference and its resulting publication Physics Philosophy and Theology A Common Quest for Understanding 1988 and on the previous Jointly sponsored conferences and their publications Quantum Cosmology and the Laws of Nature 1993 and Chaos and Complexity 1995 Future conferences will focus on scientific topics including the neuroscience s quantum physics and quantum field theory      *The Basics of Bioethics* Robert M.
