Ott, Richard J. Cebula, 2006-01-01 Attiat Ott and Richard Cebula have recognised the need to present in an accessible and straightforward way the voluminous literature in the public economics arena Advances in econometric techniques and the spillover of knowledge from other disciplines made it difficult not only for students but also for lecturers to accurately find the information they need This major Companion addresses a wealth of topics common to the study of both public economics and public choice including questions such as How does one structure the whole spectrum of public finance in a manageable framework What is Wagner's Law really about and what does empirical testing tell us How binding is the budget constraint How encompassing is a dictator's interest How do veto powers of the executive institutional structures and regimes affect public sector outcomes Do voters behave rationally Do conflicts yield benefits Is war cost effective and does secession offer a viable exit option The contributions both theoretical and empirical shed light on some contentious issues in the public economics literature and provide readers with insight into issues that are at the forefront of discussions about the public economy The empirical analysis utilizes recent econometric techniques to validate or refute empirical findings based on older vintage econometrics The diversity of coverage ranges from traditional models of the public economy to the incorporation of defence spending as a significant and often neglected function of the public sector The contributors include many pioneers and leading lights in the field The Elgar Companion to Public Economics will be required reading for academics and scholars at many levels in the fields of public economics and public choice but mainly graduate and above The Companion will also be of value to scholars in the wider social sciences in general and political science in particular **Wagner's Meistersinger** Nicholas Vazsonyi, 2003 Richard Wagner's *Die Meistersinger von Nürnberg* has been one of the most performed operas ever since its premiere in 1868 It was adopted as Germany's national opera Nationaloper not least because of its historical coincidence with the unification of Germany under Bismarck in 1871 The first section of this volume *Performing Meistersinger* contains three commissioned articles from internationally respected artists a conductor Peter Schneider a stage director Harry Kupfer and a singer Dietrich Fischer Dieskau all experienced in the performance of this unusually demanding 5 hour work The second section *Meistersinger and History* examines both the representation of German history in the opera and the way the opera has functioned in history through political appropriation and staging practice The third section *Representations* is the most eclectic exploring in the first place the problematic question of genre from the perspective of a theatrical historian The chronic issue of Wagner's chief opponent Eduard Hanslick and his musical and dramatic representation in the opera as Beckmesser is then addressed as are gender issues and Wagner's own utterances concerning the opera Contributors Nicholas Vazsonyi Peter Schneider Harry Kupfer Dietrich
