Plurality and Continuity David A.J. Seargent, 2012-12-06 by D M Armstrong In the history of the discussion of the problem of universals G F Stout has an honoured and special place For the Nominalist meaning by that term a philosopher who holds that existence of repeatables kinds sorts type and the indubitable existence of general terms is a problem The Nominalist's opponent the Realist escapes the Nominalist's difficulty by postulating universals He then faces difficulties of his own Is he to place these universals in a special realm Or is he to bring them down to earth perhaps turning them into repeatable properties of particulars universalia in res and repeatable relations between universals universalia inter res Whichever solution he opts for there are well known difficulties about how particulars stand to these universals Under these circumstances the Nominalist may make an important concession to the Realist a concession which he can make without abandoning his Nominalism He may concede that metaphysics ought to recognize that particulars have properties qualities perhaps and are related by relations But he can maintain these properties and relations are particulars not universals Nor indeed is such a position entirely closed to the Realist A Realist about universals may and some Realists do accept particularized properties and relations in addition to universals As Dr Seargent shows at the beginning of his book a doctrine of particularized properties and relations has led at least a submerged existence from Plato onwards The special classical

Being Reconciled John Milbank, 2003-08-02 Being Reconciled is a radical and entirely fresh theological treatment of the classic theory of the Gift in the context of divine reconciliation It reconsiders notions of freedom and exchange in relation to a Christian doctrine which understands Creation grace and incarnation as heavenly gifts but the Fall evil and violence as refusal of those gifts In a sustained and rigorous response to the works of Derrida Levinas Marion Zizek Hauerwas and the Radical Evil school John Milbank posits the daring view that only transmission of the forgiveness offered by the Divine Humanity makes reconciliation possible on earth Any philosophical understanding of forgiveness and redemption therefore requires theological completion Both a critique of post Kantian modernity and a new theology that engages with issues of language culture time politics and historicity Being Reconciled insists on the dependency of all human production and understanding on a God who is infinite in both utterance and capacity Intended as the first in a trilogy of books centred on the gift this book is an original and vivid new application of a classic theory by a leading international theologian

An Introduction to Natural Theology Maurice R. Holloway, 2018-06-21 What is the God of the philosopher Can the philosopher that is to say can human reason unenlightened by the revealed word come to a true and secure

understanding of He Who Is Is it possible for mere man without the impact of a personal experience intimate and intuitive to arrive by means of an objective demonstration at an absolute affirmation that the Being we call God exists or that He is Pure Act Existence Itself because without him the world of our experience is unintelligible a complete contradiction And even if we admit as all Christian philosophers must that unaided reason is able by its own power to reach an objectively true and secure assent that God exists is there any evidence in the recorded history of our world that man without the directive knowledge of revelation ever did secure by a metaphysical effort this absolute truth that the Ipsum Esse exists Whatever be the answer to this difficult problem and we do not pretend to know it it is obvious that Father Holloway in composing his philosophical approach to God allowed himself to be guided by the knowledge of faith Indeed he must have prayed often for the enlightenment which the supernatural motion of divine grace brings even to the limited and imperfect intellect of a philosopher From the Foreword by Henri Renard S J A New Law Dictionary and Glossary: containing full definitions of the principal terms of the common and civil law, together with translations and explanations of the various technical phrases in different languages ... embracing also all the principal common and civil law maxims.
