The Twin Sister Planets Venus and Earth Robert J. Malcuit, 2014-11-25 This book explains how it came to be that Venus and Earth while very similar in chemical composition zonation size and heliocentric distance from the Sun are very different in surface environmental conditions It is argued here that these differences can be accounted for by planetoid capture processes and the subsequent evolution of the planet satellite system Venus captured a one half moon mass planetoid early in its history in the retrograde direction and underwent its fatal attraction scenario with its satellite Adonis Earth on the other hand captured a moon mass planetoid Luna early in its history in prograde orbit and underwent a benign estrangement scenario with its captured satellite

Unlocking Your Soul's Consciousness Terry L. Newbegin, 2019-04-29 You have been programmed for centuries to come from a rational persuasive and susceptible mind when it comes to understanding God yourself where you come from why you are here on earth and who created you You do not realize that you were personally part of the story of creation written by the prophets in Genesis It is just that you have forgotten because of your many lifetimes on Earth So allow yourself to open up to what you have been taught about God Unlocking Your Soul's Consciousness is a groundbreaking book that takes you all the way back to the first creation known as the Garden of Eden and how it relates to your own evolution as a god in your own right When you live and make choices from the mind of reason from others long established interpretations of God's written words and from what the experts assert what is best for you your soul cannot bring forth the wisdom that you hold deep within your consciousness Thus you become more and more susceptible to turbulent experiences If you are looking for clarity in life and how to overcome your suffering pain and anger then it becomes very important to understand who you truly are where you truly come from how miracles are created and why you do the things you do Without realizing it your soul has been hiding from you for many lifetimes and by choosing to open your heart and mind putting aside your dogmatic beliefs for a while your soul will reveal all the whys of you choosing sin physicality earth forgetfulness and suffering as the means to remember who you are Know that being aware of who you

truly are is more important than all the treasures education and power in the world *Current Engineering Practice* ,1980
