Reasons To Believe Evidence For The Christian Mes:

The Theological Works of Herbert Thorndike: pt. [1]-2. Of the principles of Christian truth Herbert Thorndike, 1845 *Reason & the Contours of Faith* Richard Rice, 2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God's existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it **The New Worship Awakening** Robert E. Webber, 2007 The cultural shift since 2001 is very different than that of the 60's and 70's It is a culture tired of noise turned off by phoniness sick of glitz and wary of the superficial It is a culture that is searching for an authentic encounter with God longing for depth and substance craving quiet and spiritual contemplation and moved by visual tactile forms of communication The New Worship Awakening examines the wide array of worship styles from traditional to contemporary currently in practice in today's churches Webber makes a compelling case for renewing the vigor of the spiritual life of the church through two means grounding worship in the biblical narrative while at the same time integrating an understanding of worship traditions throughout history Through astute observations and personal experiences the author emphasizes that Christ can be encountered through the arts the services of the Christian year the Sacraments the singing of hymns and folk songs the passing of the peace the Liturgy and many other means that incorporate Christian worship styles through the ages He makes the all important point that worship today celebrates the same Christ who walked the earth two thousand years ago and that in true and lively worship there is divine action There is an action from above the Holy Spirit delivers Christ and the benefits of Christ's death and resurrection to the worshippers

Faith and Reason Richard Swinburne, 2005-09-29 Richard Swinburne presents a new edition of the final volume of his acclaimed trilogy on philosophical theology Faith and Reason is a self standing examination of the implications for religious faith of Swinburne's famous arguments about the coherence of theism and the existence of God By practising a particular religion a person seeks to achieve some or all of three goals that he worships and obeys God gains salvation for himself and helps others to attain their salvation But not all religions commend worship and different religions have different conceptions of salvation Faced with these differences Richard Swinburne argues that we should practice that religion which has the best goals and is more probably true than the creeds of other religions He proposes criteria by which to determine the probabilities of different religious creeds and he argues that while requiring total commitment faith does not demand fully

convinced belief While maintaining the same structure and conclusions as the original classic this second edition has been substantially rewritten both in order to relate its ideas more closely to those of classical theologians and philosophers and to respond to more recent views In particular he discusses and ultimately rejects the view of Alvin Plantinga that the warrant of a belief depends on the process which produced it and John Hick's contention that all religions offer valid paths to salvation
