while the menfolk of the family trapped and hunted for meat game and anything else edible and delicious It was then grandma s many times great grandmother s job to make all these ingredients into something delicious and healthy as well as palatable and nourishing So she used her instinct and her creativity to make delicacies with the ingredients available at hand Although science fiction already has stories about scientists making complete little nutritional packages in the shape of pills that are going to take the shape of food in the coming centuries we are very fortunate that we do not have to face that sort of blandness in our meals today We still have the good fortune of going to the nearest market or the nearest organic garden and collecting fresh greens as well as herbs We have plenty of fresh meat at hand And best of all we have all the ingredients to make good wholesome food We only hope judging by the pleasure most of us get from eating the preparation cooking and serving of this nutritious food is going to be a human activity which is going to be around for a long time But most of us cannot afford to have some of the more exotic ingredients of which we dream Either they are not available to us in our city Or perhaps they are beyond our budget Unfortunately for a large percentage of people all over the world budget constraints are the reason why they have to make do with makeshift meals instead of eating what nature intended for them good wholesome natural ingredients Grandma was a frugal person She lived in a time when the dollars earned by grandpa had to be stretched in such a manner that the whole family could be fed and fed well Times changed and times of prosperity came along and the eating habits of the whole family changed Instead of two or three healthy meals in a day there was food aplenty and the whole family could now afford to eat whatever they wanted whenever they wanted and in large quantities This naturally gave rise to problems including obesity Also by not regulating the meal intake as well as the quality of the meals the quality of the general health of grandma s children deteriorated as time went by However the circle of financial constraints has gone and come around again and the time for tightening belts and looking at our budgets has become the top priority A majority of us all over the world again are looking for ways and means in which we can get the proper nutrition in the form of proteins vitamins minerals and energy which our bodies required to keep functioning in a healthy manner *Grandma's Kitchen* Jason Shulman,1985 **Granny'S Favorites Cookbook** Dee Schoenmakers,2016-05-10 Granny s Favorites Cookbook by Dee Schoenmakers You will enjoy over five hundred of Grannys favorite recipes Some recipes were collected and written down as early as the pioneer days through the early mid and late 1900s and most recently added in the first years of the twenty first century The Grannys Favorites Cookbook is stuffed full of old time favorites I went back seven generations to collect two hundred pages of good old time flavors just like Granny used to make The book features the following breakfast lunch dinner international recipes salads side dishes breads desserts beverages condiments soups and stew recipes Great cooking tips and substitute suggestions are included Grannys Favorites Cookbook has made many beginner chefs and newlyweds cook like professionals Great reading many generations love to read Grannys Favorites Cookbook for entertainment It brings back so many memories of sitting around Grannys kitchen table sampling all her
