Peter Fraser New Zealand's Wartime Prime:

Peter Fraser, New Zealand's Wartime Prime Minister, Etc. [With Plates, Including Portraits.]. James THORN (President of the New Zealand Labour Party.), Peter Fraser, 1952 *Peter Fraser, New Zealand's Wartime Prime Minister. With Forewords by C.R. Attlee and W.J. Jordan* James Thorn, C. R. Attlee, W. J. Jordan, 1952 *Peter Fraser* James Thorn, 1952

This Realm of New Zealand Janet McLean, Professor Janet McLean, Alison Quentin-Baxter, 2017-12-11 New Zealand is a democratic constitutional monarchy one of Queen Elizabeth II's sixteen realms This book provides a comprehensive account of how the Queen the Governor General and the Crown interact with our democratically elected leaders under New Zealand's unwritten constitution The authors explain how these islands in the South Pacific were first brought within Queen Victoria's dominions the arrangements then made for their future government and how those arrangements developed over time with the pressure for democracy and responsible government to become New Zealand's current constitution They discuss the responsibilities of and interactions between the key office holders the Sovereign herself her representative the Governor General the impersonal and perpetual Crown and the Prime Minister other Ministers and Members of Parliament All of them affect in some way the government which runs the country day to day In an afterword the authors examine some of the key issues to be considered should New Zealand become a republic The parliamentary democracy that we take for granted can conceal New Zealand's ultimate constitutional underpinnings in the monarchy But as the authors make clear the monarchy's continuing role in New Zealand's constitution is significant And understanding the roles of the Queen the Governor General and the Crown will be critical as we look forward to debates about the possibility of a republic in New Zealand *Peter Fraser, New Zealand's Wartime Prime Minister. With Forewords by C. R. Attlee and W. J. Jordan* James Thorn, Collected Writings of Gordon Daniels Gordon Daniels, 2004-03-01 Originally a student of Meiji Japan Gordon Daniels is widely known for his work on the Pacific War and the Occupation of Japan with particular regard to the world of communications in film and propaganda as well as Japanese sport He has also been closely involved with the post war era of international relations and Japan as well as studies in Japanese history and historiography In the 1980s he made significant contributions in reporting on the scope and development of Japanese Studies in Britain His most recent work has been as joint editor and contributor with Chushichi Tsuzuki of *Social and Cultural Perspectives* the fifth of the five volume series on the history of Anglo Japanese Relations Palgrave 2002 **Paradise Reforged** James Belich, 2002-05-22 This book is the eagerly awaited companion to Professor James Belich's acclaimed *Making Peoples* published in New Zealand Britain and the United States in 1996 *Making Peoples* was hailed as a turning point in the writing of New Zealand history *Paradise Reforged* picks up where *Making Peoples* left off taking the story of the New Zealanders from the 1880s to the end of the twentieth century It begins with the search for Better Britain and ends by analysing the modern Maori resurgence the new Pakeha consciousness and the implications of a reinterpreted past for New Zealand's future Along the way the book deals with subjects ranging from

sport and sex to childhood and popular culture Critics hailed *Making Peoples* as brilliant and the most ambitious book yet written on this country's past *Paradise Reforged* its successor adopts a similarly incisive original sweep across the New Zealand historical landscape in confronting the myths of the past

Allies against the Rising Sun Nicholas Evan Sarantakes, 2009-10-27 In the annals of World War II the role of America's British allies in the Pacific Theater has been largely ignored Nicholas Sarantakes now revisits this seldom studied chapter to depict the delicate dance among uneasy partners in their fight against Japan offering the most detailed assessment ever published of the U.S. alliance with Great Britain Australia New Zealand and Canada Sarantakes examines Britain's motivations for participating in the invasion of Japan the roles envisioned by its Commonwealth nations and the United States decision to accept their participation He shows how the interests of all allies were served by maintaining the coalition even in the face of disputes between nations between civilian and military leaders and between individual services and that allied participation despite its diplomatic importance limited the efficiency of final operations against Japan Sarantakes describes how Churchill favored British led operations to revive the colonial empire while his generals argued that Britain would be further marginalized if it didn't fight alongside the United States in the assault on Japan's home islands Meanwhile Commonwealth partners preoccupied with their own security concerns saw an opportunity to support the mother country in service of their own separatist ambitions And even though the United States called the shots it welcomed allies to share the predicted casualties of an invasion Sarantakes takes readers into the halls of both civil and military power in all five nations to show how policies and actions were debated contested and resolved He not only describes the participation of major heads of state but also brings in lesser known Commonwealth figures plus a cast of military leaders including General of the Army Douglas MacArthur and Fleet Admiral Chester Nimitz on the American side and Admiral of the Fleet Sir Andrew Cunningham and Field Marshal Sir Alan Brooke on the British He also paints vivid scenes of battle including the attack of the British Pacific Fleet on Japan and ground fighting on Okinawa Deftly blending diplomatic political and military history encompassing naval air and land forces Sarantakes's work reveals behind the scenes political factors in warfare alliances and explains why the Anglo America coalition survived World War II when it had collapsed after World War I

Political Life Writing in the Pacific Jack Corbett, Brij V. Lal, 2015-07-29 This book aims to reflect on the experiential

side of writing political lives in the Pacific region The collection touches on aspects of the life writing art that are particularly pertinent to political figures public perception and ideology identifying important political successes and policy initiatives grappling with issues like corruption and age old political science questions about leadership and dirty hands These are general themes but they take on a particular significance in the Pacific context and so the contributions explore these themes in relation to patterns of colonisation and the memory of independence issues elliptically captured by terms like culture and tradition the nature of self presented in Pacific life writing and the tendency for many of these texts to be written by outsiders or at least the increasingly contested nature of what that term means The Oxford History of New Zealand William Hosking Oliver, Bridget R.
