The Aesthetics of Clarity and Confusion Geoffrey A. Baker, 2016-12-22 What should literature with political aims look like This book traces two rival responses to this question one prizing clarity and the other confusion which have dominated political aesthetics since the late nineteenth century Revisiting recurrences of the avant garde experimentalism versus critical realism debates from the twentieth century Geoffrey A Baker highlights the often violent reductions at work in earlier debates Instead of prizing one approach over the other as many participants in those debates have done Baker focuses on the manner in which the debate itself between these approaches continues to prove productive and enabling for politically engaged writers This book thus offers a way beyond the simplistic polarity of realism vs anti realism in a study that is focused on influential strands of thought in England France and Germany and that covers well known authors such as Zola Nietzsche Arnold Mann Brecht Sartre Adorno Luk cs Beauvoir Morrison and Coetzee

German Film & Literature Eric Rentschler, 2013-10-15

First Published in 1986 This collection of essays by an international team of scholars is the first sustained investigation in any language of the historical interactions between German film and literature It is a book about adaptations and transformations about why filmmakers adapt certain material at certain times The major impetus at work is the desire to expand the field of adaptation study to include sociological theoretical and historical dimensions and to bring a livelier regard for intertextuality to the studies of German film and literature It is concerned with the ways in which filmmakers in Germany from Pabst and von Sternberg to Fassbinder Herzog and Sanders Brahms have engaged and been

engaged by literary history **The Works of Peter Handke** David N. Coury, Frank Pilipp, 2005 Since his now famous appearance on the literary stage in 1968 novelist playwright and poet Peter Handke has remained on the forefront of the literary vanguard having earned the praise and recognition of critics in Europe and North America alike In fact in a review essay of September 2000 The New York Review of Books called him the premier prose stylist in the German language and one of post war Europe s most recognisable literary figures Since the publication of his early theatrical works Handke has gone on to publish over twenty five prose novels as well as additional works for the theatre collections of poetry diaries and essays His works have ranged in style from the French influenced nouveau roman of the late 1960s to works characteristic of the New Subjectivity movement in West Germany in the 1970s while his novels and stories of the 1980s and 1990s exhibited a new found appreciation for narrative and issues of storytelling He has also published a series of polemical essays on the war in Yugoslavia which have been criticised severely by scholars and intellectuals has written as well as on the thematic aspects of his work **New Subjectivity and Prose Forms of Alienation** Linda C. DeMeritt, 1987 German literature of the 1970 s has earned the label New Subjectivity due to a shift in emphasis from political persuasion to an interest in the subject and a more personal engagement This book presents concepts of New Subjectivity and a discussion of its relevance concentrating on the experience of alienation as its thematic and formal departure point The investigation centers on the prose of prominent new subjective authors and details in particular the transition from fear to happiness in Peter Handke s works and the theme of love in Botho Strauss s prose Peter Handke Garvin H. C. Perram, 1992 The genesis of Peter Handke s controversial poetics is investigated through an examination of key Elfenbeinturm essays and ORF B cherecke manuscripts in which Handke s early literary preoccupations were most evident From this a coherent and comprehensive view of the theoretical foundations of his literary concerns and practice emerges This is followed by a detailed analysis of characteristic elements present in Handke s early narrative prose texts Die Hornissen Der Hausierer Die Angst des Tormanns beim Elfmeter Wunschloses Ungl ck and the collection of short stories Begr ung des Aufsichtsrats This investigation of the early texts reveals a common triadic relationship between the highly intrusive foregrounding of the narrative constituent of these texts the manner in which the literary reality is realized and their central thematic concern Handke s rather enigmatic and somewhat neglected early prose works are made very much more accessible through the insights afforded by this book
