led by Peter Paul Rubens this cycle of mythological imagery and hunting scenes was completed by Diego Velázquez. Despite the lack of a written program surviving works provide eloquent testimony of several basic themes that embody Neostoic ideals of self-restraint and prudent governance. While Rubens set the moral tone through his serio-comic Ovidian narratives, Velázquez added an important grace note with his portraits of ancient philosophers and royals and fools of the court. This study is the first to consider in depth their joint artistic contributions and shared ambition. Through analysis of individual works the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain especially in the advice literature and drama presented to the Spanish king. Moreover, they point to the lasting resonance of *Torre de la Parada* for Velázquez especially within his late masterworks *Las Meninas* and *Las Hilanderas*. Ultimately this study illuminates the dialogical nature of this ensemble in which Rubens and Velázquez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince.

Women and Art in Early Modern Europe: Patrons, Collectors, and Connoisseurs, 1999 This anthology reflects a larger impulse to recover women's involvement in the creation of an aesthetic culture from the late medieval through the early modern periods. By asking how the perspectives and experiences of female patrons contributed to the invention of particular styles or iconographies or how they shaped taste or how they influenced demand, these twelve original essays introduce significant new information about specific women patrons while raising theoretical issues for patronage studies more generally. While most of the projects discussed are consistent with the period's male-sanctioned concept of female patronage as an expression of conjugal devotion or dynastic promotion, at the same time the women involved devised strategies that circumvented these rules, allowing them to explore the potential of art as a means of proclaiming their own identity and taste.

Art Books Wolfgang M. Freitag, 2013-10-28 First published in 1997. For this second edition of *Art Books: A Basic Bibliography of Monographs on Artists*, the vast number of new books published since 1985 was surveyed and evaluated. This has resulted in the selection of 3,395 additional titles. These selections, reflective of the increase in the monographic literature on artists during the last ten years, are evidence of the activities of a larger number of art historians in more countries worldwide, of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically, and also of a lively international art market and the attendant gallery activities. The selections of the first edition have been reviewed, errors have been corrected, and important new editions and reprints have been noted. The second edition contains 278 names of artists not represented in the first edition.

Peter Paul Rubens Maria Varshavskaya, Xenia Yegorova, 2012-01-17 Universally celebrated for his rosy and concupiscent nudes, Peter Paul Rubens (1577-1640) was an artist whose first concern was sensuality in all its forms. This Baroque master devoted himself to a lifelong celebration of the joys and wonders of the physical realm. He felt that the

human body was as lovely and natural as the many natural landscapes he painted as a young man In a lushly illustrated text Mar a Varshavskaya and Xenia Yegorova explore the master at work bringing a unique focus to Ruben s life and work *Die flämischen Gemälde des 17. und 18.
