Internet-Meme Nils Dagsson Moskopp, Christian Heller, 2013 Kleine Kulturgeschichte der Webcomics Forenwelt Schockseiten Emoticons der popul ren Grafiken sowie Phrasen die es bis in die Weltsprache schafften *Beyond the Meme* Alan C. Love, William Wimsatt, 2019-09-03 Interdisciplinary perspectives on cultural evolution that reject meme theory in favor of a complex understanding of dynamic change over time How do cultures change In recent decades the concept of the meme posited as a basic unit of culture analogous to the gene has been central to debates about cultural transformation Despite the appeal of meme theory its simplification of complex interactions and other inadequacies as an explanatory framework raise more questions about cultural evolution than it answers In *Beyond the Meme* William C Wimsatt and Alan C Love assemble interdisciplinary perspectives on cultural evolution providing a nuanced understanding of it as a process in which dynamic structures interact on different scales of size and time By focusing on the full range of evolutionary processes across distinct contexts from rice farming to scientific reasoning this volume demonstrates how a thick understanding of change in culture emerges from multiple disciplinary vantage points each of which is required to understand cultural evolution in all its complexity The editors provide an extensive introductory essay to contextualize the volume and Wimsatt contributes a separate chapter that systematically organizes the conceptual geography of cultural processes and phenomena Any adequate account of the transmission elaboration and evolution of culture must this volume argues recognize the central roles that cognitive and social development play in cultural change and the complex interplay of technological organizational and institutional structures needed to enable and coordinate these processes Contributors Marshall Abrams U of Alabama at Birmingham Claes Andersson Chalmers U of Technology Mark A Bedau Reed College James A Evans U of Chicago Jacob G Foster U of California Los Angeles Michel Janssen U of Minnesota Sabina Leonelli U of Exeter Massimo Maiocchi U of Chicago Joseph D Martin U of Cambridge Salikoko S Mufwene U of Chicago Nancy J Nersessian Georgia Institute of Technology and Harvard U Paul E Smaldino U of California Merced Anton T rnberg U of Gothenburg Petter T rnberg U of Amsterdam Gilbert B Tostevin U of Minnesota **Fame Attack** Chris Rojek, 2012-04-10 The follow up to the hugely successful *Celebrity* this is an analysis of what celebrity culture is today In 2001 the phenomenon of Jade Goody and reality TV shows was in its infancy Now Rojek explores celebrity engineering technologies of fame creation and issues of loneliness and uncertainty It is set to become the benchmark in the field Access ,2001 **Special Affects** Eric Jenkins, 2016-10-27 Examines the translation of classical Hollywood into Disney's feature films from a Deleuzian perspective *Special Affects* retells the emergence of Disney animation and classical Hollywood cinema from the perspective of affect and the embodied modes of generating affection The emergence of these media enables new modes of perception that create aspecial sensations of wonder astonishment marvel and the fantastic Such affections subsequently become mined by consumer industries for profit thereby explaining the connection between media and consumerism that today seems inherent to the culture industry Such

modes and their affections are also translated into ideology as American culture seeks to make sense of the sociocultural changes accompanying these new media particularly as specific versions of American Dream narratives *Special Affects* is the first extended exploration of the connection between media and consumerism and the first book to extensively apply Deleuzian film theory to animation Its exploration of the connection between the animated form and consumerism and its re examination of twentieth century animation from the perspective of affect makes this an engaging and essential read for film philosophy scholars and students

Memes in Frame-Semantic Perspective Niels Brause, 2017-03-07 Bachelor Thesis from the year 2016 in the subject English Language and Literature Studies Linguistics grade 1.3 University of Duisburg Essen Department of Anglophone Studies language English abstract One cannot escape them because they are everywhere There is scarcely a day without one coming across them They are a humorous picture a witty message or a funny video you find on the internet They are in our newsfeed on our message boards or in personal messages from our friends These sources of entertainment seem to be by now an important element of today's web society and there is a huge number of image boards like 9gag.com or reddit.com which have no other purpose than satisfying our needs for these sources of entertainment Even a growing number of newspapers have started to include this type of content in their online platforms A term that is often used to describe this accumulation of different visual entities is the term memes but this term is vague and ambiguous and it does not specifically say what kind of phenomena are included in it This bachelor thesis is an attempt to establish these phenomena labelled as memes as valuable objects for linguistic studies It will glance at several linguistic theories and check their relevance for analysing image macros as representatives for memes in general Finally it will analyse image macros by using the frame semantic framework thus integrating the former accomplished insights in one theoretic framework with only a few central terms This will support the thesis that frame semantics is capable of describing the patterns of encyclopaedic knowledge needed in order to understand complex bimodal entities
