Janice VanCleave's Super Science Challenges Janice VanCleave, 2007-10-26 This fun filled resource will help you discover how to answer these questions and more and in the process come up with your own great science projects Janice VanCleave's Super Science Challenges gives you the ideas and information you need to start experimenting in a range of topics from astronomy biology and chemistry to earth science and physics You can use these science challenges as jumping off points for science fairs or classroom projects or just try them at home for fun The book is designed to show you how to use science inquiry to solve an exciting challenge

The Zinc and Iodine Book Stephen DeMeo, 2019-05-15 This book is for chemistry teachers who are thinking about reinventing their laboratory experiments that they provide to their students More than a collection of experiments it is an example of using a chemical theme to teach chemistry Instead of introducing many different chemicals per experiment as is the norm in most lab manuals this novel resource focuses on two commonly found elements Zinc and Iodine So what is so special about these elements At the heart of this resource is a colorful cyclic reaction between zinc and iodine one that produces a compound that can decompose back to its original elements This unique phenomenon demonstrates that matter not only changes but is also conserved through a chemical reaction Knowing that a compound can be the same but different than the reactants that formed it is to understand the essence of chemical change Complementing this reaction this book contains experimental activities that utilize the zinc and iodine theme to scaffold new concepts such as the properties of matter solid and gas stoichiometry equilibrium kinetics acid base chemistry and electrochemistry This teacher tested resource focuses on a set of safe substances that are appropriate for high school teachers who provide an advanced chemistry placement course and for college instructors teaching a first year chemistry laboratory sequence
