ABSTRACT

This article aims to determine council members' involvement in carrying out their duties and responsibilities related to community empowerment. Furthermore, to find out how council members maximize the potential of the region and its community with a power and policy approach. Political CSR is an inherent obligation of parliamentarians because the people elect them in a formal and legal context. The carried-out mandate should present full responsibility to struggle for the community's welfare in internal work as a legislative product holder and external work in serving the community. This research uses an intrinsic case study approach with the object of research on legislative members in the Grobogan Regency. The socio-political responsibilities of the parliamentarians will be studied based on the triple C approach; they are Community Relations, Community Empowerment, and Community Service. Community relations aim to foster a harmonious relationship between organizations (politicians) and the community to increase social awareness and mutual understanding. Community Empowerment is an effort to develop community potential and overcome existing societal problems. The involvement of council members in community empowerment is implemented in three stages: good community relations, community empowerment in the form of community advocacy, and creating an institution that educates the community and community service by prioritizing comprehensive services.

INTRODUCTION

The political adage says there are no true friends and opponents in politics, only real interests. Superficial understandings ignore critical reasoning related to political history, and the inside of various noble goals make a premature thesis of politics by dwarfing the issue only on power struggles. Politics should be positioned as a human effort by creating a state concept that produces social welfare based on justice and equality.

Like two coins that have two different sides, that is how politics is present in everyday life. The power struggle seems to extinguish the human instinct by defeating and punishing each other, which is the dark side that dominates the news so that it covers the bright side of politics in the form of social responsibility and a necessity to do the best for constituents in particular and society in general.

Humans as social beings have dependence and individual involvement with society in a social system where the spontaneous appreciation of individuals leads humans to discover the essence of usefulness for others. Apart from this, politicians are a small part of the humans who spontaneously appreciate the individual, so they must have concrete benefits in a social system.

Lane, Suzanne Pritzker, 2017-12-16 This social work book is the first of its kind describing practical steps that social workers can take to shape and influence both policy and politics. It prepares social workers and social work students to impact political action and subsequent policy with a detailed real world framework for turning ideas into concrete goals and strategies for effecting change. Tracing the roots of social work in response to systemic social inequality, it clearly relates the tenets of social work to the challenges and opportunities of modern social change. The book identifies the core domains of political social work including engaging individuals and communities in voting, influencing policy agendas and seeking and holding elected office. Chapters elaborate on the necessary skills for political social work featuring discussion examples and critical thinking exercises in such vital areas as Power, empowerment and conflict, engaging effectively with power in political settings, Getting on the agenda, assessing the political context and developing political strategy, Planning the political intervention, advocacy and electoral campaigns, Empowering voters, Persuasive political communication, Budgeting and allocating resources, Evaluating political social work efforts, Making ethical decisions in political social work. *Political Social Work* is a potent reference for social work professionals, practitioners and students seeking core political knowledge and skills to practically advance their work. Bearing in mind the National Association of Social Workers Code of Ethics requirements to advocate on behalf of vulnerable populations, readers learn that advocacy is a problem solving technique similar to that used in social work practice of all types. The book moves through the stages of advocacy and provides up to date advice on how to succeed in advancing social justice even in the current challenging political environment. **Social Workers Affecting Social Policy** John Gal, Idit Weiss-Gal, 2014-06-04 Furthering social justice and human rights is a fundamental principle underlying the social work profession. Engaging in social policy formulation processes is a major route through which social workers can realise this goal. This type of social work activity has been termed policy practice. The aim of this book is to shed light on policy practice in social work discourse, education and practice in eight liberal democracies. This is the first effort to undertake a cross national study of social worker engagement in social policy formulation processes. The book offers insights into questions such as what is the importance attributed to social worker involvement in policy change in the social work discourse and education in different countries and how do social workers influence social policy in various national settings. These issues are relevant to social workers.
