

# Practical problems

- Sometimes, ideas for scientific investigations arise from practical problems.
- Example: Will removing salt marshes from the environment for housing projects affect the ecosystem a great deal?

*Philosophy and the Spiritual Life* Victoria S. Harrison, Tyler Dalton McNabb, 2023-07-01 This book breaks new ground for the philosophy of religion by showcasing work that engages with the lived reality of the spiritual life It demonstrates that philosophy's relationship with spirituality is more than a historical curiosity and that in the twenty first century it is still meaningful to think about philosophy in connection with spirituality The chapters are organised around the following themes spiritual practice and philosophical understanding philosophical reflections on living a spiritual life philosophical problems concerning the spiritual life The first part discusses whether or not the topic of spirituality should be given a more fundamental role within the philosophy of religion and if so how that might be accomplished The second part addresses fundamental issues concerning human beings their lives and their self understanding in relation to the spiritual life The final part considers philosophical problems that emerge when discussing the spiritual life By bringing together discussions of these topics this volume constitutes a valuable resource for scholars in disciplines in which the spiritual life is a focus of interest particularly philosophy theology and religious studies

## **Ethical Issues in Preventive Medicine S.**

Doxiadis, 2012-12-06 The first suggestions and exchange of ideas for this Workshop began about two years ago when at the invitation of Professor E Bennett Director of Health and Safety of the Commission of the European Communities and Professor W W Holland of the Panel of Social Medicine and Epidemiology of the EEC I asked the Panel to sponsor a project for the study of Ethical Issues in Preventive Medicine The Panel gave its approval and support and asked Dr L Karhausen Dr R Blaney and me to undertake the planning Since then we have had several meetings in Brussels and have added Professor Heleen Terborgh Dupuis and Mrs Susie Stewart to our small planning team The Planning Committee invited many experts to collaborate with us on the project and as can be seen from the list of participants they represent many scientific disciplines and many countries About a year ago we also asked for the help and sponsorship of the NATO Science Council which was generously given The culmination of our efforts was the Workshop held in Athens in January 1985 the proceedings of which are contained in the present book The members of the Planning Committee and the participants at the Workshop would like to express thanks to Mr H Durand Secretary General for NATO Scientific Affairs and Dr M di Lullo Programme Director of NATO Scientific Affairs and to Professor Bennett and Professor Holland for all the moral and financial support they have given to this project

Brandell, 2010-02-16 Today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them. *Theory and Practice in Clinical Social Work* is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods, models, and techniques for responding to the needs of an increasingly diverse clientele. Following an overview of the principal frameworks for clinical practice including systems theory, behavioral and cognitive theories, psychoanalytic theory, and neurobiological theory, the book goes on to present the major social crises, problems, and new populations the social work clinician confronts each day. *Theory and Practice in Clinical Social Work* includes 29 original chapters, many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations. Collectively, these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities. Included in this volume are chapters on practice with adults and children, clinical social work with adolescents, family therapy, and children's treatment groups. Other chapters focus on social work with communities affected by disasters and terrorism, clinical case management, cross-cultural clinical practice, psychopharmacology, practice with older adults, and mourning and loss. The extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike.
