Practice Development For Professional Firms:

Managing The Professional Service Firm David H. Maister, 2012-12-11 Professional service firms differ from other business enterprises in two distinct ways first they provide highly customised services thus cannot apply many of the management principles developed for product based industries Second professional services are highly personalised involving the skills of individuals Such firms must therefore compete not only for clients but also for talented professionals Drawing on more than ten years of research and consulting to these unique and creative companies David Maister explores issues ranging from marketing and business development to multinational strategies human resources policies to profit improvement strategic planning to effective leadership While these issues can be complex Maister simplifies them by recognising that every professional service firm in the world regardless of size specific profession or country of operation has the same mission statement outstanding service to clients satisfying careers for its people and financial success for its owners

Summary of David H. Maister's Managing The Professional Service Firm Everest Media, 2022-06-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The mission of every professional service firm is to deliver outstanding client service provide fulfilling careers and professional satisfaction for their employees and achieve financial success so that they can reward themselves and grow 2 The required shape of the organization is primarily determined by the skill requirements of its work For Brain projects which involve highly skilled and highly paid professionals the opportunities to leverage the top professionals with juniors are limited 3 The three categories of project types are those that involve the highest proportion of junior time those that involve the highest proportion of senior time and those that involve both junior and senior time The choice of project types is one of the most important variables available to balance the firm 4 The archetypal structure of the professional service firm is an organization containing three professional levels In a consulting organization these levels might be labeled junior consultant manager and vice president In a CPA firm they might be referred to as staff manager and partner

Handbook of Research on Entrepreneurship in Professional Services Markus Reihlen, Andreas Werr, 2012-01-01 Professional service firms are critical agents of contemporary economies and understanding them has become a central focus of recent scholarship This very timely and well organized Handbook brings together several leading scholars who explore

how we might think and theorize about professional service firms and their entrepreneurial behaviours The Handbook will become a key source for the growing community of researchers in this area Royston Greenwood University of Alberta Canada For too long both researchers and practitioners have presumed that professional service firms follow the status quo when they should better understand how these professionals set the rules for globalization This Handbook reminds us that professionals are as much the shock troops of capitalism as the multinational corporations that they serve As this Handbook shows the leading firms successfully compete with each other by fostering entrepreneurship and innovation in order to service an institutional system that undergirds the international economy Christopher McKenna University of Oxford UK Professional services are increasingly seen as an important foundation for future economic growth and prosperity Yet research on innovative and entrepreneurial processes in professional services has been surprisingly scarce This Handbook provides a collection of original contributions from leading scholars outlining the current stock of knowledge in the area as well as providing directions for further research The expert contributors discuss entrepreneurship and innovation from a number of different perspectives including the entrepreneurial professional team the entrepreneurial firm and the institutional environment The first part of the book looks at the challenges of entrepreneurship specific to the professional service firm while the second explores the creation and exploitation of entrepreneurial opportunities in the professional service team Part III turns to the organization and Part IV to the management and growth of the entrepreneurial professional service firm The final part discusses the interplay between professions firms and the institutional environment Researchers scholars and PhD students in the areas of entrepreneurship and professional service firms along with advanced students of management will find this volume of great value
