Revelation Space:

Revelation Space Alastair Reynolds, 2002-05-28 The highly acclaimed first novel in the Revelation Space universe a debut that has redefined the space opera with a staggering journey across vast gulfs of time and space to confront the very nature of reality itself A TOUR DE FORCE RAVISHINGLY INVENTIVE Publishers Weekly Nine hundred thousand years ago something annihilated the Amarantin civilization just as it was on the verge of discovering space flight Now one scientist Dan Sylveste will stop at nothing to solve the Amarantin riddle before ancient history repeats itself With no other resources at his disposal Sylveste forges a dangerous alliance with the cyborg crew of the starship Nostalgia for Infinity But as he closes in on the secret a killer closes in on him Because the Amarantins were destroyed for a reason and if that reason is uncovered the universe and reality itself could be irrevocably altered The Revelation Space Collection Volume 2 Alastair Reynolds, 2025-07-17 This is volume 2 of the complete collection of tales set in the Revelation Space universe by British Science Fiction Award winner Alastair Reynolds The mastersinger of Space Opera The Times created the astonishing Revelation Space universe one of the most vivid and original SF universes ever written Alongside the award winning novels is a galaxy of superb short fiction collected and published here in two volumes in chronological order This volume includes Turquoise Days Weather Grafenwalder's Bestiary Nightingale Monkey Suit The Last Log of the Lachrimosa Night Passage Open and Shut Plague Music *Revelation Space Trilogy* Alastair Reynolds, 2017-04-20 **Revelation Space** Alastair Reynolds, 2001 Science fiction roman **The Revelation Space Collection Volume 1** Alastair Reynolds, 2025-07-17 This is volume 1 of the complete collection of tales set in the Revelation Space universe by British Science Fiction Award winner Alastair Reynolds The mastersinger of Space Opera The Times created the astonishing Revelation Space universe one of the most vivid and original SF universes ever written Alongside the award winning novels is a galaxy of superb short fiction collected and published here in two volumes in chronological order This volume includes Dilation Sleep A Spy in Europa Galactic North Great Wall of Mars Glacial Diamond Dogs Zima Blue Alastair Reynolds, 2009-04-30 A fabulous collection spanning the galaxies and career of SF superstar Alastair Reynolds Reynolds pursuit of truth is not limited to wide angle star smashing not that stars don't get pulverised when one character is gifted or cursed with an awful weapon by the legendary Merlin Reynolds protagonists find themselves in situations of betrayal whether by a loved one's accidental death as in Signal to Noise or by a trusted wartime authority in Spirey and the Queen His fertile imagination can resurrect Elton John on Mars in Understanding Space and Time or make prophets of the human condition out of pool cleaning robots in the title story But overall the stories in ZIMA BLUE represent a more optimistic take on humanity's future a view that says there may be wars there may be catastrophes and cosmic errors but something human will still survive Absolution Gap Alastair Reynolds, 2009-12-10 Take another awe inspiring leap into the darkly imagined future of REVELATION SPACE where it is time for Humanity to meet its Unmakers Mankind has endured centuries of horrific plague and a particularly brutal

interstellar war but there is still no time for peace and quiet Stirred from aeons of sleep the Inhibitors ancient alien killing machines have begun the process of ridding the galaxy of its latest emergent intelligence mankind As a ragtag bag of refugees fleeing the first wave of the cull head towards an apparently insignificant moon light years away they discover an avenging angel a girl born in ice She has the power to lead mankind to safety and the ability to draw down their darkest enemy And on a planet where vast travelling cathedrals crawl towards the treacherous fissure known as Absolution Gap an unsettling truth becomes apparent to beat one enemy it may be necessary to forge an alliance with something much much worse

Redemption Ark Alastair Reynolds, 2009-12-10 The Inhibitors are back and Humanity is doomed Many many millennia ago the Inhibitors seeded the universe with machines designed to detect intelligent life and then to suppress it But after hundreds of millions of years the machines started to fail and intelligent cultures started to emerge Then Dr Dan Sylveste and the crew of Infinity discovered what had happened to the long vanished Amarantin race and awakened the Inhibitors On Yellowstone where no one is quite who they appear the Inquisitor and the planet's Most Wanted War Criminal are watching as the Inhibitors turn a small group of planets into raw materials Whatever they are building with those materials is not going to be good for Humanity Once again Al Reynolds has produced a stunning universe spanning space opera of mind blowing proportions Big in size big in concepts REDEMPTION ARK will leave you gasping at its audacity and breathless at its conclusion This is British SF at its absolute best Readers are hooked on the Revelation Space series An exceptional incomparable read Goodreads reviewer Better and even darker than the previous one And so realistic written that it gives you shivers There are concepts which are simply too big to comprehend Goodreads reviewer A hugely satisfying read one thing that is cool about this series is that I'm three books in and while there is a overall larger story being told each one is totally self contained Big ideas a gigantic story and a sincerely massive and awesome finale Goodreads reviewer It's a well written mix of sci fi horror suspense and mystery *Redemption Ark* is a treatise on the dangers of the kind of closed minded thinking which plagues our world today Goodreads reviewer I am blown away by the level of realism depth and structure of this series Throw in some incredible characterizations and you have a premium sci fi series Goodreads reviewer Reynolds has created a fun thought provoking and exciting space opera series that is as well written as it is entertaining Fans of Frank Herbert's *Dune* series and Dan Simmons's *Hyperion* series will enjoy Goodreads reviewer
