**After the Thousand Years** J. Webb Mealy,1992-03-01 A fresh and highly illuminating approach to what is perhaps the most difficult chapter in the most difficult book of the New Testament Mealy employs a carefully developed methodology which draws fully on the special literary techniques of Revelation particularly its extensive use of internal cross references multivalent images and symbols and complex Old Testament reminiscences With its central thesis that Revelation 20 7 10 and 20 11 15 offer parallel representations of the resurrection and final judgment of the unrepentant this study is destined to become a benchmark for future discussions not only of the millennium but of the literary workings of Revelation as a whole
