Review Of The Availability And Quality Of Global Demographic Data Hearing:

Review of the Availability and Quality of Global Demographic Data United States. Congress. House. Committee on Post Office and Civil Service. Subcommittee on Census, Statistics, and Postal Personnel, 1994 Distributed to some depository libraries in microfiche [Review of the Availability and Quality of Global Demographic Data](#) ,2015-08-05 Excerpt from Review of the Availability and Quality of Global Demographic Data Hearing Before the Subcommittee on Census Statistics and Postal Personnel of the Committee on Post Office and Civil Service House of Representatives One Hundred Third Congress Second Session August 2 1994 The subcommittee met pursuant to call at 10 04 a m in room 311 Cannon House Office Building Hon Thomas C Sawyer chairman of the subcommittee presiding Members present Representatives Sawyer and Petri Member also present Representative Morella Mr Sawyer Thank you all for being here The U N International Conference on Population and Development next month in Cairo is going to deal with population issues that affect us all in ways that are far broader than the notion of population usually generates among most people I suspect most places in the world And yet its effect is very deep and broad The United States for the first time in some time is in a strong position to provide effective leadership in a wide variety of global population policies Our commitment will have I hope an enormous effect on the outcome of the conference Population is growing and moving in ways that demand coordinated responses by the international community We need timely reliable and consistent information to understand this kind of rapid change and its consequences Not only that but we need that kind of information to support the core issues that underlie the consequences of that change Often at least some arenas of global population data are sketchy and of inconsistent quality Strengthening that data will help us to guide policy decisions Perhaps just as much it will help us to measure our own efforts to participate and lead in the world That ability to measure those consequences is perhaps one of the most difficult things in dealing with questions of foreign aid of any that we face Let me just mention a few of the issues that are of particular interest to me this morning We have perhaps the largest number of forced international migrants in the world today of any time since World War II Despite their relatively small proportion of total world population their substantially growing numbers have an increasingly significant effect on a broad range of policy consideration However information about the number and movement of refugees is inadequate About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Monthly Catalogue, United States Public Documents** ,1995 **Monthly Catalog of United States Government Publications** ,1995 **Monthly Catalog of**
