Revivalism In America Its Origin Growth:

The Blackwell Companion to Religion in America Philip Goff, 2010-03-25 This authoritative and cutting edge companion brings together a team of leading scholars to document the rich diversity and unique viewpoints that have formed the religious history of the United States. A groundbreaking new volume which represents the first sustained effort to fully explain the development of American religious history and its creation within evolving political and social frameworks. Spans a wide range of traditions and movements from the Baptists and Methodists to Buddhists and Mormons. Explores topics ranging from religion and the media, immigration and piety, though to politics and social reform. Considers how American religion has influenced and been interpreted in literature and popular culture. Provides insights into the historiography of religion but presents the subject as a story in motion rather than a snapshot of where the field is at a given moment. [A Theology of the Holy Spirit](#)

Frederick Dale Bruner, 1997-12-03 Bruner has been both thorough and fair and has written a book that combines scholarly research with constructive commentary on the life and mission of the contemporary Church. **Why**

Tongues? The Initial Evidence Doctrine in North American Pentecostal Churches

Kenneth Richard Walters, 2019-08-26 The modern Pentecostal movement has been studied many times in relation to its theological and sociological background. Previous studies however have not focused on the distinctive doctrine of that movement: the teaching that speaking in tongues is the initial physical evidence of the Baptism in the Holy Spirit. Given that Pentecostals believe that this is a work of grace such a doctrine seems unlikely to arise as physical evidence is seldom required or looked for in the life of a believer in relation to any other area of grace. This prompts the question of why such evidence was even being looked for. And yet within a very short time of its proposal acceptance of this doctrine was so widespread as to become the hallmark of the movement. Insistence on such a doctrine led to many being asked to leave their denominations and thus to the founding of other denominations. This book attempts to answer the question Why? And specifically Why Tongues?

Revivalism in America William Warren Sweet, 1944 *The Revival of 1857-58* Kathryn Teresa Long, 1998-07-02 This book provides a fresh in depth examination of the Revival of 1857-58, a widespread religious awakening most famous for urban prayer meetings in major metropolitan centers across the United States. Often mentioned in religious history texts and articles but overshadowed by scholarly attention to the first and second Great Awakenings, the revival has lacked a critical book length analysis. This study will help to fill this gap and to place the event within the context of Protestant revival traditions in America. The Revival of 1857-58 was a multifaceted religious movement that Long suggests may have been the closest thing to a truly national revival in American history. The awakening marked the coming together of formalist and populist evangelical groups, particularly in urban areas, and helped to create the beginnings of a transdenominational religious identity among middle class American evangelicals. Long explores the revival from various angles, emphasizing the importance of historiography and examining the way Calvinist clergy and the editors of the daily press canonized particular

versions of the revival story most notably its role in the history of great awakenings and its character as a masculine businessmen s revival She gives attention to grassroots perspectives on the awakening and also pursues wider social and cultural questions including whether the revival actually affected evangelical involvement in social reform The book combines insights from contemporary scholarship concerning revivals women s history and nineteenth century mass print with extensive primary source research The result is a clearly written study that blends careful description with nuanced analysis

Embodying the Spirit Michael J. McClymond, Michael James McClymond, 2004-07-16 This book will appeal to scholars and students of popular religion as well as to general readers interested in the subject BOOK JACKET *Dwight L. Moody* James F. Findlay, 2007-09-01 No one can claim to understand the American social and religious mind of the last half of the nineteenth century who does not understand sympathetically what evangelist Dwight L Moody and his career represented Moody was an entrepreneur a self made man a living expression of much that was hearty and some of what was crass about religion in his day This is the first biography to place him fully within the context of the broad social theological and cultural developments of his time Most of the existing biographical literature about Moody is either simplistically eulogistic or sarcastically hostile These polar views reflect the split that occurred within the Protestant church between fundamentalists and modernists during and after Moody s career It is with an objective overview of these divergencies that the author has prepared his biography Mr Findlay demonstrates how Moody s outlook evolved from the small town framework of early nineteenth century New England and developed into the mainstream of American evangelicalism In the rising cities of Boston and Chicago he concentrated his efforts to urbanize revivalism as part of a general struggle to adapt a traditional faith to a rapidly changing external environment After his triumphant revival crusades of the 1870s the impact of his style and message faded before the progressive liberal approach to religion that was to shape twentieth century Protestantism The present biography of this great evangelist is far superior to any other both for its scholarly approach in determining the place of evangelicalism in American social and religious history and for its portrayal of the overpowering impact of Moody s personality It will be particularly fascinating to those interested in American social history and the history of evangelism the man and the movement

Religion and American Culture, 1993 **As a Thief in the Night** Dan Erickson, 1998 Belief in the approaching Millennium dominated early Mormon theology and behavior For their first sixty year history the Latter day Saints were zealous apocalyptic and frequently encountered trouble with non Mormons which they viewed as a necessary conflict prior to Jesus Christ s imminent return The nineteenth century ended with the church forced to conform to American values and abandoning hope of Christ s return within their lifespans

History of the U.S. from the Compromise of 1850 James Ford Rhodes, 1895 The Force of Fantasy Ernest G. Bormann, 1985 This study is the culmination of a decade of work that

began with the contro versial article Fantasy and Rhetorical Vision which was recently honored by the Speech Communication Association with the Charles H Woolbert Research Award in recognition of scholarship of exceptional originality and influence With the publication of this long anticipated book Bormann offers new insights into the development of Ameri can thought and the related social pro cesses of intellectual history and small group communication as well as rheto rical criticism To accomplish this he studies religious and reform speaking in the United States from the time of the Puritans to the Civil War Not attempting to survey all of the varied practices of preaching and reform speaking he isolates describes and criti cizes one rhetorical tradition starting with the Puritan sermon and moving through the emergence of revivalism to the rise of the antislavery reform efforts and culminating in the speeches of Abra ham Lincoln He thereby presents for the first time an integrated and structured account of one rhetorical tradition in this country Of perhaps equal interest to rhetorical critics are Bormann s research procedures as he presents the first book length study to utilize fantasy theme analysis
