The Revolt Against Dualism first published in 1930 belongs to a tradition in philosophical theorizing that Arthur O Lovejoy called descriptive epistemology Lovejoy s principal aim in this book is to clarify the distinction between the quite separate phenomena of the knower and the known something regularly obvious to common sense if not always to intellectual understanding This work is as much an argument about the ineluctable differences between subject and object and between mentality and reality as it is a subtle polemic against those who would stray far from acknowledging these differences With a resolve that lasts over three hundred pages Lovejoy offers candid evaluations of a generation s worth of philosophical discussions that address the problem of epistemological dualism In his stunning new introduction Jonathan B Imber offers a reassessment of Lovejoy s career as a thinker and as an active participant in the worldly affairs of academic life He introduces to a new generation of readers some enduring principles of the vocation of the scholar to which Lovejoy not only subscribed but to which he also gave substance through his activities as an academic man The opening statement provides both a fit tribute to a great pioneer in the history of ideas and an example of intellectual history in its own right The Revolt Against Dualism will be a significant addition to the libraries of philosophers sociologists and history of ideas scholars
