## **Revolution And The Meanings Of Freedom:**

*Revolution and the Meanings of Freedom in the Nineteenth Century* Isser Woloch, 1996 In the aftermath of the French Revolution freedom came to have a host of meanings This volume examines these contested visions of freedom both inside and outside of revolutionary situations in the nineteenth century as each author explores and interprets the development of nineteenth century political culture in a particular national context The common focus is the struggle in various countries to define advance or delimit freedom after the French Revolution The introductory chapter evokes the problematic relationships between reform and revolution and introduces themes that appear in subsequent chapters though each chapter is a free standing interpretive essay Among the issues addressed are the growth of the public sphere and associational movements battles over constitutionalism parliamentary institutions and the franchise the role of the state in inhibiting or expanding citizenship and the rule of law the resort to violence by parties of order or parties of change and the intrusion of new social questions or ethnic conflicts into the political arena

The Meaning of Freedom Kewu Huang, 2008 This book is about how one of the leading intellectual architects of Chinese modernization Yan Fu 1854 1921 introduced the Chinese intellectual world to the liberalism of John Stuart Mill partly by grasping Mill's ideas but also by misunderstanding and projecting them onto indigenous Chinese values which in turn led to criticism and resistance Rather than bending Western liberalism to the purposes of Chinese nationalism Yan initiated a distinctively Chinese liberal tradition that became a major component of China's modern political culture Description from publisher website

The Revolutionary Constitution David J. Bodenhamer, 2012-02-01 The Revolutionary Constitution examines how the Constitution has served as a dynamic and contested framework for legitimating power and advancing liberty in which our past concerns and experiences influence our present understanding Informed by the latest scholarship the book is an interpretive synthesis linking constitutional history with American political and social history

**Transatlantic Revolutionary Cultures, 1789-1861** Charlotte A. Lerg, Heléna Tóth, 2017-11-06 Transatlantic Revolutionary Cultures 1789 1861 argues that the revolutionary era constituted a coherent chapter in transatlantic history and that individual revolutions were connected to a broader transatlantic and transnational frame As a composite the essays place instances of political upheaval during the long nineteenth century in Europe and the Americas in a common narrative and offer a new interpretation on their seeming asynchrony In the age of revolutions the formation of political communities and cultural interactions were closely connected over time and space Reciprocal connections arose from discussions on the nature of history deliberations about constitutional models as well as the reception of revolutions in popular culture These various levels of cultural and intellectual interchange we term transatlantic revolutionary cultures Contributors are Ulrike Bock Anne Bruch Peter Fischer Mischa Honeck Raphael H. **Participation and Democratic Capability in Authoritarian States** Lien Pham, Ance Kaleja, 2021-02-22 This book provides an innovative theoretical and empirical exploration of the political participation and democratic capability of people living in authoritarian states Merging perspectives from sociology and political science the book demonstrates that despite autocratic restrictions on opposition there is often still leeway for people to express themselves as political agents and to develop democratic capability The first two chapters problematise political participation and develop an interdisciplinary three domain framework that allows for critical engagement with and appreciation of the contexts and varied ways in which participatory activities occur This framework is applied to analyse six country case studies Singapore Jordan Belarus Cuba Nigeria and Vietnam Drawing on a range of data sources and different analytical entry points the book investigates the substantive opportunities people have in exercising political agency and the implications for democratic capability The book concludes by summarising the emergent themes and examining the potential of applying this method of inquiry in other political contexts Encompassing both governmental and societal practices the book offers insights into state society relations and their role in constructing political values and goals for participation which people negotiate and mediate to inform their choices modes and forms of civic engagement These insights present a broad approach towards the study of participation with relevance for understanding political participation in various societies under non democratic and democratic rule alike This book will be useful for researchers and students interested in political dynamics and intersections with economic cultural and social aspects of development It will also be beneficial for practitioners interested in participatory actions and social change

**Liberty and Union** Bp. Samuel Fallows, 1889      Urban Memory in City Transitions Ali Cheshmehzangi, 2021-04-02 As a continuation of Identity of Cities and City of Identities this book covers the arguments around the memory experience cognition nexus concerning palimpsests and urban places As cities experience transitional phases of growth development decline and decay the author urges considering the notion of urban memory in place making strategies and design decision making processes These explorations would add value to primary fields of architecture architectural history cognitive science human geography and urbanism Divided into eight chapters this book puts together a comprehensive knowledge of urban memory in city transitions By studying urban memory the author delves into conceptions of mental mapping knowledge of environments cognition of places and the perceptual dimension of urbanism Undoubtedly urban memory plays a significant

part in the future movements of humanistic urbanism Given the significances of scale pace and mode of city transitions globally we should remember who are the ultimate users of those living environments Therefore in this book the author debates two contradictions of memory of place vs place of memory and significance of place vs place of significance Each of these is believed to be a paradox of its own indicating places are significant through the systematic networks of cities memories are meaningful through the neural information processing and place memories are the essence of urban identities The book s ultimate goal is to demonstrate the effectiveness of the space time frame of place in making memorable places Through the comprehensive explorations of many global examples we can evaluate the significance of place in mind more carefully This is narrated based on the recognition of nostalgia in cities socio temporal qualities in places and the network of processes in our minds In return the aim is to provide new knowledge to make memorable cities enhance social experiences and capture and value the significance of place in mind     *The Life and Correspondence of Rufus King* Rufus King,1898
